Six feet of earth make all equal

R.N.I. REGD. NO. 70959/99; (PB) 1048/99; Zirakpur, Wednesday 28th May, 2025 Vol 22, Edition 22 Page 6 Rs 2/-

## No check on persistent environmental destruction by PPCL

**Minakshi Sharma**

Commissioner News Service

In civilised society, no scrupulous rationalist human would ever ponder over destroying environmental sanctity, where we have to daily breathe.

Here, ruthlessly, no weightage on purity of environmental preservation, is being attributed. On the contrary, toxic gases are being disseminated openly in all directions without any fear of the pollution control authorities to which whole of the Choudehri village in proximity is the immediate witness.

It may here be underscored that the propagation of green house gases intensifies the germination of various kinds of malaises like diarrhoea cancer, joint pain, asthma, pigmentary disorders, eye inflammation, bronchitis etc. Rather it may be

Picture of propagating gases taken on 05.Nov.2024

Another image of disseminating gases taken on 26 Nov, 2024

The site of Rama Industries where the auccumbility of pollution rests

The enviromental destruction caused by toxic carbon smoke may be nowadays also witnessed frequently and its consequential dissemination of gases was videographed on 5 Jan , 2024 and also after fortnight gap was again published on 26Nov, 2024 but no action by local senior environmental engineer Rantaz Sharma and Lovneet Dubey at Punjab Pollution Control Board was taken.

pointed out all ailments are germinated by the polluting gases. On confirming the action taken by the local pollution control authorities, the Senior Environmental Engineer Rantez Sharma said the matter was in the cognizance of higher authorities Chief Environmental Engineer Lovneet Dubey.

It becomes explicitly clear that PPCB was not taking any interest in saving the environment over us . Since the violation of AIR (Pollution) section 21, 22 act is being transgressed in open the sanctity of environment stands injured and brutally abused Toxic waste has

been causing abundant pollution bemoan several residents of near by village Chandehri. The prevention of hazards to all living creatures, plants and properties would have to be safeguarded by the industrial concern, point out the residents of the vulnerable village.

The persistent violation of the environmental safety act help germinate scores of serious ailments. The environmental pollution cast detrimental impacts on prenatal disorders, and unborn infants transmitting negative traits due to the climatic and ailing leverage. Despite repeated calls to

the Rama Industries, no response was given and the Chief Environmental Engineer too was not available on his mobile phone. The combustible issue of carbon smoke and poisonous gases have been emanating from stubble burning and industrial chimneys.

The Supreme Court had been left with no choice but had to call the Chief Secretaries of Haryana and Punjab with their copies of action taken report. The National Capital region has emerged as a gas chamber of the Haryana and Punjab and has been facing the onslaught of the

environmental disaster caused by the pungent gases. The idea of Supreme court was to protect the vastly expanded fabric over us particularly the delicate fabric was being threatened and environmental law 1986 and the being persistently transgressed.

### "System of easy registry being launched in Mohali by AAP govt

Commissioner News Service

Mohali: "Punjab would be the first state to roll out such a citizen friendly focused, transparent, and efficient registry system. This will not only save time and money for citizens, but also bring an end to decades old corruption networks in tehsils," said Bhagwant Mann the Chief Minister of Punjab.

Bhagwant Mann. Mr Mann articulated that any undue or irrelevant objection raised by registry officials will be taken seriously. "Such objection will be reviewed by the deputy commissioner, and action will be

taken against the responsible officers, including suspension if required," he warned.

Kejriwal lauded Punjab govt's initiative, calling it an exemplary model work for nation.

Under the new system, the sale deed registration payment can be made through sewa sahayaks, and the submission of documents can also be done through these assistants.

### 30 illegal houses at Jhampur demolished by GMADA

Mohali : The enforcement wing of GMADA on

Saturday pulled down 30 illegal structures in Jhampur area.

Mr Arvind Pannu GMADA officer began his massive demolition drive at 11.30 am and prolonged it until 4 pm. Approx 25 houses under construction and another illegitimate structures were razed near Jhampur. The drive included dismantling at least seven structures in sector 39 (west).

### Civic body leaves broken road midway, defunct water line in Shivalik Complex

Commissioner News Service

Zirakpur : Residents of Shivalik Complex are being harassed and victimized for the past over a month as they had urged for the adequate supply of pot water. Not a drop of water as yet but colossal harassment due to broken road and yet no water connection annexed on the other side of the supply line where from water has to be channelised to meet the needs of the residents, bemoan the appli-

cants Kamal. Rajkumar and Sham Lal.

The negligence of the civic body shouldering the

responsibility of providing basic amenity has not able to complete the water supply and Mr Kuldeep Singh.

### China's stealth fifth generation fighter jets for Pakistan

Commissione News Service

Beijing : China has handed over J-35A stealth fighter jets to Pakistan. The first deployment has taken place at Skardu airbase. Pakistan has now become the first country in South Asia to have fifth generation fighter aircraft. Under the deal, China will give a total of 40 J-35A to Pakistan. A total number of 12 will be received in the second consignment

in August. These are fifth generation fighters equipped with stealth technology, they are capa-

ble of evading radar. India currently does not have any stealth fighter jets.

### No fear of ED or Modi, pleads Udhavanidhi

Commissioner News Service:

Pudukkottai : "I have said, many times that we DMK are not intimidated by ED nor by Modi. The DMK was founded by Kalaignar and is a party of self respect, rooted in the principles of Periyar. It is not a party with a servitude mindset. We have done nothing wrong, and therefore, there is no reason to fear. Everything will be dealt with legally," said Deputy chief minister Udhavanidhi Stalin. He accused the Central govt of attempting to intimidate the DMK by

the weaponizing Enforcement Directorate (ED), but asserted that the state govt will not yield to those tactics. Later at a meeting, he also said Income Tax, ED, which are all working for the BJP, have already started their election work. His remarks come amid

opposition claims that the central agency is zeroing in on close aides of Udhayanidhi Stalin himself in connection with the alleged Rs 1,000 crore Tasmac scam despite the SC's recent directive to stay investigation.

### India on Indus treaty move at UN

Washington : In addition to repeated cross-border terrorism, factors such as energy requirements and dam safety led to India's decision to place the Indus Waters Treaty with Pakistan in abeyance, India told the United Nations.

India's decision to place the Indus Waters Treaty with Pakistan in abeyance following the Pahalgam terrorist attack was the result of a well-considered process, driven by multiple factors, India said

at the United Nations

on Friday. New Delhi specified that it was Pakistan, not India, that violated the 1960 water-sharing agreement.

### UN Security Council demands accountability from Pakistan over J&K attack

Commissioner news service New Delhi : Pakistan's recent missile tests and flagged their nuclear rhetorics as an escalatory factor. has been an escalatory factor in the development of potential war tension.

The United Nations Security Council came down heavily on Pakistan at a closed-door consultation over tensions with India and the Pahalgam terror attack, citing sources. The members grilled Islamabad over Pakistan-based terror group Lashkar-e-Taiba's involvement in last month's Pahalgam attack, in which 25 tourists and a

Kashmiri pony ride operator were killed by terrorists in cold blood. Islamabad's attempts to internationalise the situation failed with the members of the global security body flagging Pakistan's nuclear rhetoric as an escalatory blaze. Pakistan, one of the 10 non-

permanent members of the council, had requested the UNSC's Greek presidency for "closed consultations" in view of the tensions with India. The other members of the UNSC include the veto-wielding permanent ones: China, France, Russia, UK, and US. During the talks that lasted for over an hour, the UNSC members condemned the terror attack and highlighted the need for accountability. They also brought up that the tourists were targeted in Pahalgam based on their religion, the report said.

### Crypto devours Rs 1 Cr of Merchant Navy Offr

Commissioner News Service

Mumbai: On getting assurance of high returns, the merchant navy officer was urged to open an account with crypto currency trading platform.

In seventy one transactions, the victim officer sent

USDT amounting to Rs 1.03 Cr.. He had purchased USDT as he got instructions for his high returns.

He later realised he was duped when he didn't receive his money back and was asked to pay taxes.

EDITORIAL ~

Lack of ‘Lokraj’ is a scourage in democracy

Lok raj is simple to understand, for it is the power that the people exercise in an elected democracy. It is the power, the right to elect people, that the Constitution provides and protects. Lok raj, on the other hand, doesn't emanate from the Constitution; it emanates from the character of a society that is reflected in individual behaviour and its normative response to individual conduct.

The popular but much-mocked Devi Lal, former Deputy Prime Minister of India, once said, "Lok raj lok raj se chalta hai." He was one of the tallest farmer leaders of the country, with an incomparable connect with the people, especially in rural areas. He both regaled and riled people with his rusticity. But this article is not about him; it is about what he famously said. For those in power in a democracy, it is an axiom summed up in the word 'raj', for which there is no exact equivalent in the English language.

The dictum Satyamev Jayate (truth always triumphs), an exhortation to speak the truth. Whether it triumphs or not in these days and times is a different matter. It is a human value propagated in every society and in most families. However, except for perjury, not speaking the truth is not illegal. While perjury could be punished by law, how do we deal with falsehood? How do we deal with those who publicly speak untruth?

The Supreme Court has set up an SIT to probe his conduct, but that was necessitated because he wasn't chastised by his own organisation. Nor was he genuinely chastened by his own conscience, his clever expression of regret notwithstanding. No leader of his political party reprimanded him publicly; nor did his organisation take him to task for the reprehensible comment.

What can be a more heartbreaking and pathetic example of this crass insensitivity than the utterances of the Haryana BJP MP who accused the unfortunate women who suffered the loss of their husbands during the Pahalgam massacre, of lack of "courage" and "training" to fight the terrorists? Is he suggesting that the state is vanishing and law enforcement should be an individual responsibility? The law cannot punish him for what he said because there has been no violation of the law; also, his party leadership might exhibit "broad shoulders" and "tolerance". But should he not be publicly castigated and made to pay by his party?

a brazen abandoning of Lok Raj is clear, by both politicians and their party leadership. That amounts to a social approval of their conduct, allowing them to live without guilt even if the law were to punish them. Remember the garlanding of those convicted of rape in Gujarat? It did not

amount to a pardon; it only meant an endorsement of their character, unmindful of the egregious crime they had been convicted for. That is the power of social acceptance; it can also be the pressure of social disapproval. Society and relationships survive because of dar (fear), lihaaj (consideration or deference) and sharam (shame). An ordinary citizen fears the law; a normal human being accommodates others not necessarily because they are right but out of deference to their age, relationship, status or circumstances; and most of us avoid doing something that will leave us shamefaced.

None of these is governed by any law and, yet, they are effective in influencing human behaviour. The absence of these could lead to a major breakdown in social relationships, behavioural norms and decorum.

The other face of this unabashed insensitivity is the manner in which another BJP representative said the Chief Justice of India was responsible for civil wars in the country. He was not just accusing the CJI, he was holding him responsible. I am not sure what message the SC conveyed by condoning his insolent statements by referring to its own "broad shoulders", but the political leadership certainly betrayed its complicity by its reticence.

AI-powered tools scouted by Hry Police to check cybercrime

**Commissioner News Service PANCHKULA :** Officers from various departments in a meeting were briefed on Saturday by DCP Crime Amit Dahiya on the strategic use of digital tools in policing. To modernise policing and strengthen cyber vigilance, the Panchkula police have determined to adopt AI-powered mobile applications. Among the digital tools introduced were the Sanchar Saathi app, which helps block lost or stolen mobile phones, and the Telecom Analytics for Fraud Management and Consumer Protection (TAFMCP) portal, which allows individuals to check and report unauthorised SIM cards registered in their name. The DCP shed light on the Chakshu portal, designed for reporting frauds and scams, especially those carried out via phone calls and messaging apps. The Bhashini app, capable of translating text and speech across languages, was also demonstrated. The cop said this tool could prove valuable not only for the police but also for the general

public, especially in multilingual scenarios. A live demonstration of these tools was conducted for officers. The DCP said similar workshops will be held regularly and their outcomes reviewed to ensure improvement. DCP Dahiya highlighted that technological advancement was not just an option but a necessity for effective policing in the digital age. Using a video presentation, he demonstrated how the integration of smart applications could significantly reduce response time, enhance transparency, and help in tracking criminals more swiftly. He emphasised that keeping pace with evolving cyber threats was crucial.

60 small flats allottees asked to vacate flats by CHB

**Commissioner News Service CHANDIGARH :** The Chandigarh Housing Board (CHB) had issued eviction notices to allottees of 60 small flats. They have been given one month to vacate the flats in the past four days. The CHB has started the proceedings for eviction of allottees of small flats who have failed to deposit the prescribed licence fee. The occupants have unauthorisedly occupied dwelling units from December last year. The allotment of the units was cancelled over non-payment of licence fee and the dues had risen to Rs 1 lakh or more in each case. The CHB ordered them to vacate the premises within one month from the date of service of notice, failing which they will be evicted forcibly. On May 19, the notices were issued to 10 allottees in Ram Darbar and six in Sector 49. On May 21, notices were issued two flats in Sector 56. The next

day, eviction orders were issued for a total of 16 flats in Sector 14 (West) Dhanas, 10 in Sector 56 and 16 small flats in Sector 38 (West). The CHB had constructed about 20,000 flats in different areas of the city under the Small Flats Scheme-2006. These flats were allotted to poor families who lived in slum colonies. The terms of allotment included that the allottees have to deposit the monthly rent of Rs 800 with the board. Most allottees have failed to pay rent for the past several years. The dues added up to Rs 2 lakh or more each.

First Covid positive case arrives in Mohali

**MOHALI :** The first Covid case was found positive in the recent times. A patient from Yamunanagar tested positive for Covid at a private hospital here. The 51-year-old female patient is stable. "She is under treatment for multiple ailments and Covid is one of them," said District Epidemiologist Dr Harmandeep. Health officials said RTPCR tests were being conducted regularly in the district,

In India, most cases have been reported from Kerala, Tamil Nadu, Maharashtra, Karnataka and Delhi. These are mild cases and need care at home. Doctors urged people not to panic over cases linked to the JN.1 variant, as the strain is "not severe".

Addition of garbage collection charges to property tax deplored by several traders

**Commissioner News Service CHANDIGARH :** The MC had imposed garbage collection charges of Rs 9,844 and added the same to his property tax bill for 2025-26, said a trader of Sector 22, Naresh Malhotra in a letter written to Mayor, Harpreet Babla. A large number of city traders has taken an exception to the Municipal Corporation's decision of adding garbage collection charges to the property tax. They claim that while the MC has failed to ensure proper garbage collection in markets, it has started charging the garbage collection fee. Malhotra claimed that neither garbage was being collected from the premises nor any person had been deputed to clean area near his SCO. Asking why should he pay a huge amount as the garbage collection charges to the MC in advance, he has requested the Mayor to look into the matter. Sanjiv Chadha, president of Chandigarh Beopar Mandal, said he had been receiving similar complaints from many markets. When the MC had failed to put in

place a proper garbage collection system in markets, why it was levying the charges for the same, he asked. Chadha said there was no reason to add the garbage charges to the property tax bills. He said charging the fees in advance was also wrong. He added that there is no arrangement for garbage collection in Bural for two years, but the MC is still charging the traders for garbage collection. Alleviating harassment of the traders by the MC, the CBM president said there was a total mismanagement in the system as people were still getting bills on old rates. He reiterated the demand for extending the last date for depositing the property tax. Chander Verma, president, Chandigarh Business Council, has also opposed the practice of adding the garbage collection

charges to the property tax bill. Seeking the extension of the deadline, he said wrong bills were being sent on the old enhanced rates. "When people go for correction no one listens to them. They are asked to deposit the bill and that it will be adjusted next year," he added. According to the Solid Waste Management Bylaws, the user fee for collection, transportation and disposal of solid waste is to be charged from residential areas and commercial establishments. While the garbage collection charges are being added to water bills in residential areas, the same is being added to property tax bills for the commercial properties. RK Garg, president, Second Innings Association, has also demanded the extension of the deadline for clearing property tax. He added that if the property tax is not paid in time i.e. before the last date fixed by the MC, the property owners will have to pay 25% as penalty and 12% per annum as interest from April 2025, which works out to 60% extra over and above.

100 CTU diesel buses on expiry of operational lifespan to go off tricity roads in November

**Commissioner News Service CHANDIGARH :** After reaching their operational lifespan, the buses will no longer be roadworthy and have to be removed from the local routes, said officials of the UT Transport Department. Commuters in the tricity would have to face inconvenience as nearly 100 diesel buses of the Chandigarh Transport Undertaking (CTU) operating on local routes will be condemned in November this year. These 100 aging diesel buses, currently operating from Depot No. 4, are to be replaced by electric buses. The existing fleet, which includes non-AC green and AC red automatic diesel buses, was allotted to the city under a special scheme during the 2010 Commonwealth

Games in Delhi. The department had submitted a proposal to the Union Ministry of Home Affairs (MHA) for the procurement of environment-friendly buses under the Central government's PM e-Bus Sewa scheme so that the Administration can process the tender at its level and buy 100 electric buses as replacement of diesel buses. However, the proposal is yet to be approved. Officials stated that it was now certain that even if the approval was received, there would be a

shortage of buses on the local route by the end of this year, as it would take at least two to three months to finalise the tender process and select the company. Even if the process was completed by August or September, the selected company would not be able to deliver 100 buses till November, they added. The shortage of buses would affect routes of Chandigarh as well as Mohali and Panchkula as only CTU buses run for public transportation in the tricity. Officials said buses could be diverted from the long routes to the local routes, but it would affect the long routes, from which the CTU gets more revenue. About 350 buses of CTU run on local routes while about 230 run on long routes.

Tertiary treated water connection for 500 sqyd. house or more

**Commissioner News Service CHANDIGARH :** The Municipal Corporation has decided to provide tertiary treated water connections at residents' doorsteps. Tenders have been issued for laying pipelines for the purpose. Under the project, the water pipeline will be laid till the doorsteps of houses and other institutions like schools, colleges. MC sources said with the completion of the project, the residents will be able to get tertiary water connections without any hassle of taking permission to dig roads in the vicinity or purchasing material. The MC will charge the required fee as fixed under bylaws. To be completed at an estimated cost of Rs 72 crore,

the project will help the MC save precious drinking water. Under the water bylaws, the civic body has made tertiary water connections mandatory for houses measuring 500 sq yards and above. While around 8,000 houses are eligible for tertiary water connections, half of the houses are yet to receive it. Likewise, all schools, colleges

and other institutions have also not been connected with the tertiary treated water line. The tertiary treated water is supplied from six sewage treatment plants of the MC situated at 3BRD, Dhanas Raipur Khurd, Raipur Kalan Maloya and Diggian. These STPs have been upgraded under the Smart City Mission. Providing uninterrupted water supply to the residents is a big challenge for the MC. The city witnesses a shortfall of 13 MGD of water against the demand of 100 MGD during the summer. Presently, the city is receiving 87 MGD of water. In such a situation, increasing tertiary treated water connections will help the MC save drinking water.

Panchayat Secretaries exhorted to update records of Shamlat land

**Commissioner News Service MOHALI :** While reviewing land record of the block Majri and block Mohali, District Development and Panchayat Officer (DDPO) Baljinder Singh Grewal said all Secretaries were instructed to ensure the maintenance of the Shamlat land. The land should be pinned on Google Maps and the boundaries be marked. Grewal held a meeting with the Panchayat Secretaries of Block Majri and Block Mohali at the District

Administrative Complex to review the progress of departmental schemes and other development works. The Shamlat land, according to the instructions, are to be marked on logs so that their maintenance process can be made madesmoother. Besides, while directing the

implementation the pending possession warrants as soon as possible, the Panchayat Secretaries were given 10 days time to implement the possession warrants. "If there is any problem in implementing any possession warrant, the Panchayat Secretary should immediately bring this matter to the notice of his senior officer so that the possession warrants can be implemented in a time bound manner," Grewal further added.

Electricity complaint cell for consumers : Power Wing

**Commissioner News Service ZIRAKPUR :** An officials said the number (9646119321) would handle grievances from residents in Zirakpur, Bhabat, Godown Area, Nabha, Nadiyali, Alipur, Safipur, Dayalpur, Bakarpur, Rurka, Kandala, Matran, Dharamgarh, Naraingarh Jhuggian, Adda Jhuggian, Chatt, Stabgarh, Kurri, VIP Road, and parts of Lohgarh, Singhpura, Ramgarh Bhudda, Bishanpura and Aerocity. For timely resolution of power supply-related problems, the Zirakpur Division of Punjab State Power Corporation Limited (PSPCL) has announced complaint cells for consumers. He said Dhakoli, has its own complaint cell (9646137873). This line would assist consumers from Baltana, Wadhwa Nagar, parts of Lohgarh and Singhpura, Dhakoli, Dhakola, Peer Muchalla, Kishanpura, parts of Bishanpura, Sanoli, Gazipur, Ajijpur, Bassi Sekhan, Rampur Kalan, Banur, Fatehpur Garhi, Sekhan Majra and Bal

Majra. Senior Executive Engineer, Operation Division (Special), PSPCL Mohali, Tranjit Singh, said for consumers in Phase 1 to Phase 6 of Mohali, including residential and commercial areas, as well as villages such as Mohali, Balongi, Daun, Badmajra, Green Enclave, 36 West and surrounding areas like Mullanpur, Nayagaon, New Chandigarh, Sec 125 and Sec 126, Nodal Complaint Centre-1 can be reached at 96461-15973. Similarly, for those in Phase 7 to Phase 11 Mohali (residential and industrial areas), as well as Mataur, Sec-48 C, Sec-76 to 113, Sohana, Saneta, Bhagamajra, Kambali, Kumbra, Swara, Chadiala and IT City, Nodal Complaint Centre-2 is available at 96461-19214.

Compounding regime of synthetic milk

We over 70% of populace digest daily the pulverised synthetic milk which comprises a definite quantity of detergent, urea, caustic soda, sodium hydroxide and fats, cautioned the otherday, Dr Harsh Vardhan, Union Minister for Science & Technology. In accordance with Food Safety & Standard Authority of India, the quality of milk in question doesn't conform to the parameters laid by the stipulated law. The excess water added to the milk may destroy the intake of nutritious specific values, which are immensely harmful. The unnatural milk also comprises certain quantity of insecticides and metal which are destructive to human health. One day, skimmed milk sample of 548, only 577 were found to be carrying ample quantity of glucose. It has been noticed while storing,

packaging, certain quantity of detergent particles enter the openly placed quantity of bare milk. The demand for the genuine quality milk is not being met hence the glut of synthetic milk would continue to rein in the prevailing market. Artificial imitation of natural milk remains harmful to human health. Its excessive use inflict very serious damage on human body causing swelling in the eyes and many other complication in the liver and kidney. The journey of synthetic milk, now a days, has been heading

from urban area to rural populace to acclimatise to their propensities. Our nation has been notoriously becoming famous, leaving concentration away from genuine natural milk. Now fait accompli, we are tolerating assortment by of chemicals, urea, by compulsion as the occupation of genuine dairy farming has been going in very lackadaisical race even government controlled units are losing curiosity in natural milk. What a catastrophic approach, but against whom? remains puzzling.

‘Dreadful dream’ resulted after 11 years of Modi-led govt : Kharage

Commissioner News Service  
NEW DELHI : “Rising unemployment, unfulfilled job and income promises, challenges faced by marginalised communities, increasing inflation and inequality, setbacks in initiatives like Make in India, strained foreign relations and perceived weakening of democratic institutions as major concerns with the current regime have been the star achievements”, said Mallikarjun Kharage. In its critical assessment of 11 years of the BJP government at the Centre, the Congress called the regime led by Prime Minister Narendra Modi a “dreadful dream” and “undeclared emergency”. As PM Modi-led government completed 11 years at the Centre, Leader of Opposition (LOP) in Rajya Sabha Mallikarjun Kharage

highlighted. He said every section of society had been adversely affected, turning the promise of "achhe din" (good days) into a "dreadful dream". "The promise of two crore jobs per year for youth has not been fulfilled; nor has the promise of doubling farmers' income. Women's safety is in tatters. Weaker sections while the minorities are facing terrible atrocities. If we consider economy, inflation is at its peak, unemployment is on the rise, while consumption is at a standstill. The 'Make in India' has

flopped, while inequality is at its peak. In their foreign policy, the BJP leaders promised to become 'Vishwaguru' but spoiled relations with every country," he said. He further alleged the misuse of ED/CBI, blaming the Centre for destroying the autonomy of institutions. Additionally, Congress leader Jairam Ramesh called the day an "undeclared emergency". "India has won! India is victorious. Good days are coming," PM Modi had said after his party secured victory in 2014. Modi was sworn in as 14th prime minister on May 26, 2014. Since then, he has remained in power for 11 successive years, securing a third straight mandate in the 2024 general elections, a first for any Indian PM.

Ludhiana byelection to be litmus test for all parties

Commissioner News Service  
CHANDIGARH/LDH: The bypoll has been necessitated by the demise of Aam Aadmi Party (AAP) MLA Gurpreet Singh Gogi in January this year. The result of the June 19 bypoll will be announced on June 23. The Ludhiana (West) Assembly bypoll is set to be a litmus test for all political parties in Punjab as its outcome will serve as an indicator to their electoral prospects in the 2027 state Assembly elections. Stakes are high for ruling AAP as the bypoll is likely to be considered as a referendum on its performance. The bypoll for the Hindu-dominated urban constituency is being held in the wake of the government crackdown on farmers, who were evicted from protest sites on the border with neighbouring Haryana earlier this year. The move was interpreted as an attempt to win the trust of traders, who had to suffer losses due to the closure of roads during the over one year-long farmer protests, held to demand a legal guarantee for Minimum Support Price (MSP) for crops. The party also kickstarted its campaign in February, months ahead of the announcement of the bypoll schedule, by fielding

Rajya Sabha MP Sanjeev Arora. For the past three months, Chief Minister Bhagwant Mann and all top leaders of the party, including national convenor Arvind Kejriwal, have increased their public presence in the industrial city, meeting all sections of voters and launching new government initiatives. Meanwhile, pressure will be on the Congress too, which is currently grappling with differences among its leaders. The Congress, which is the state's main Opposition party, has placed its bet on former minister and aggressive campaigner Bharat Bhushan Ashu. The stakes are also high for state Congress chief Amrinder Singh Raja Warring, who is the sitting Lok Sabha MP from Ludhiana. Pressure will be intense on Shiromani Akali Dal (SAD) president Sukhbir Singh Badal to deliver a win, even though this is not a traditional Akali seat.

Gurugram holistically aims zero emission by 2050

Commissioner News Service  
GURUGRAM : As Gurugram features among the top polluted cities in the country, the Gurugram Metropolitan Development Authority (GMDA) has drawn a holistic plan to reduce emissions in the city. The authority has drafted a 'net zero 2050' document, contouring the goals for urban policy-making to make Gurugram a zero emission city. Net-zero refers to the point at which a specific area or city is able to remove from the atmosphere all green house gases (GHGs) it is emitting. Effectively, it ensures that no additional carbon or other GHGs are being added into the atmosphere.

The document elaborates on the way forward to implement sustainable development strategies like construction of green buildings, setting up of centralised cooling plants in housing societies, adoption of cleaner technologies and increasing the share of electric vehicles over the next 25 years. The plan deals in four major arenas — energy, waste, transport and greenery.

PM flags off India’s most powerful locomotive engine

Commissioner News Service  
Dahod (Gujarat) : Strong rail infrastructure not only connects people, but empowers agriculture and industries. "India now exports metro and train coaches to countries like Australia, England and Saudi Arabia. Besides, we are exporting 'Made in India' locomotives to nations across Asia, Africa and Europe," stress Prime Minister Modi. The Prime Minister added, framing India's industrial rise as a global narrative. He flagged off India's most powerful locomotive engine, which has been manufactured in Dahod, Gujarat; and inaugurated development projects exceeding Rs 24,000 crore. These projects are aimed at positioning the tribal-dominated region as a rising industrial powerhouse. The day also marked the 10th anniversary of Modi's first swearing-in as Prime Minister. "This is not just the flagging off of a locomotive, but the launch of a new era of industrial self-reliance," he said. He also highlighted the successful rollout of a 9,000-horsepower (HP) electric engine from the Dahod Electric Locomotive Factory, a project he had laid the foundation for three years ago.

As Gujarat's rail network is now fully electrified, Dahod's new manufacturing capacity is expected to generate substantial local employment. The facility will produce hundreds of high-power engines, each bearing Dahod's name. It will also support small industries through the production of ancillary components. Apart from the locomotive launch, Modi inaugurated a new Vande Bharat Express between Ahmedabad and Vervaval and unveiled multiple rail routes, including the Dahod-Valsad Express, which will enhance connectivity across Gujarat's tribal belt. The Prime Minister attributed the transformation of Dahod from a backward district to an aspirational district to targeted investments in education, infrastructure and healthcare.

He spoke of ongoing efforts such as the PM Janman Yojana and the 'Dhartii Aaba Janjati Gram Utkarsh Abhiyan', aimed at uplifting tribal communities through housing, sanitation, roads, and schools in over 60,000 villages across the country. Additionally, Modi highlighted the government's national mission to eliminate sickle cell anaemia, affecting tribal populations, and infrastructure initiatives bringing the Narmada water to drought-prone areas which now irrigates over lakh acres of land. "The progress in Dahod is personal to me. From cycling here in my youth to launching the country's most powerful engine, this journey reflects the spirit of a rising India," the PM said. He said he envisions Gujarat's Dahod, Vadodara, Kalol and Halol emerging as a high-tech corridor, bringing development, inclusivity and industrial growth. With aircraft assembly lines in Vadodara and setting up of semiconductor plants underway, I envision a future where this belt will produce everything from bicycles to jets, he stated.

Enforcement Directorate seizes Rs 1.70 Crore in a raid from Jaypee Infra

Commissioner News Service  
NEW DELHI : The Enforcement Directorate carried out searches covering offices and premises of JAL, its related entities and its promoters and directors. Searches were also conducted at the offices and premises related to key business associates of JAL, including Gaursons India Pvt Ltd, M/s Gulshan Homz Pvt Ltd, and Mahagun Real Estate Pvt Ltd. The ED had initiated investigations on the basis of FIRs registered by the Economic Offences Wing (EOW) of Delhi and Uttar Pradesh Police against JAL, JIL and their promoters and directors under various Sections of the IPC. The Directorate of

Enforcement (ED) has seized financial documents, data and digital devices along with documents relating to immovable properties and cash worth Rs 1.70 crore in raids on sites linked to Jaypee Infratech Ltd and associated entities. On May 23, the agency had conducted search operations at multiple locations across Delhi,

Noida, Ghaziabad and Mumbai in connection with an investigation involving Jaypee Infratech Ltd (JIL), Jayprakash Associates Ltd (JAL) and associated entities under the provisions of the Prevention of Money Laundering Act (PMLA), 2002. The FIRs allege large-scale fraud and criminal conspiracy, including dishonest inducement of homebuyers and investors to invest funds on the pretext of allotment of residential apartments and plots in projects such as Jaypee Wishtown and Jaypee Greens. Further investigation is under progress in the matter, said the ED officials.

Rs 2.5 crore grabbed by Malout man after buying lottery ticket

Commissioner News Service  
MUKTSAR : In a sheer matter of luck, Dipty Bansal, a resident of Green Valley in Malout town, won the top prize of Rs 2.5 crore in the Nagaland State Dear 500 Super Monthly Lottery, just more than an hour after purchasing the ticket on Saturday evening. Dipty, who runs a car bazaar in Malout, had no plans to try his luck until a chance interaction with a lottery agent changed everything for him. "It was a lucky day yesterday. My business partner wanted to buy a lottery ticket, and we called an agent to our

shop who was in the market. The agent then asked me too to buy a ticket, saying the draw would be held the same night. I told him to give me a ticket at random, and that was it. Almost one and a half hour later, I received a call from the same agent, saying I had won the top prize of Rs 2.5 crore," said an elated Dipty. Regarding what he

planned to do with the prize money, Dipty said, "I am still letting the news sink in. My family and I will decide later what to do with the prize money." Interestingly, this is not the first time that Malout town has produced a big lottery winner. Earlier, a Panchkula resident, who had purchased a Nagaland State Dear 2000 Monthly Lottery ticket from Malout, walked away with a prize of Rs 1 crore on May 3. Some lottery agents said the recent wins were likely to get more people interested in buying lottery tickets.

## 10 month old infant's body donated by parents for medical research at PGI

Commissioner news service

Chandigarh : The parents of 10 month old Vansh from Lehragaga in Sangrur , created a profound precedent at PGI by donating their son's organs , For the first time in the institute 's history , his body for medical research and training after he tragically had succumbed to injuries. This dual donation not only saved a life but also deeply resonated with the medical community and beyond .

Despite the exhaustive efforts of the medical team , his condition deteriorated due to severe head trauma . Faced with the heartbreaking reality that further interventions were futile , his parents , Tony Bansal and Prem Lata , made the courageous decision to donate his organs and

tissues .

"It's a loss beyond words . But we are followers of Dera Sacha Sauda , and our Guru ji teaches us that the greatest service is to save lives . We couldn't save our son , but we knew we could give another parent hope . We wanted Vansh's brief life to leave a meaningful legacy , " said Bansal . " Organ donation from infants like Vansh highlights the remarkable ability to save lives even at the youngest ages .

## 12 th" Arts , commerce passout can also become pilot

Commissioner News Service

New Delhi : The exclusive choosen science stream for flying training would now be surpassed by Arts aswell Commerce streams. Upon finalising the recommendations sent by Directorate General of Civil Aviation , the amendments would be

approved by the Ministry of Civil Aviation . Certain streams like Physics and Maths are currently in force to steer candidates for pilots training 1Once the change is notified ,all class 12 passouts would be eligible to become commercial pilots in our country.

## Terrorism is a rising global problem , scourge, unitedly we must fight : Shashi Tharoor

Commissioner News Service

New York : All party delegation , Shashi Tharoor Congress MP articulated on Saturday highlighted how India responded in a measured and calibrated manner towards terror bases and headquarters in Pakistan, following the dastardly Pahalgam terror attack in which 26 people were killed. Mr Tharoor gave a call for the world to come together to fight unitedly against terrorism. Delivering the remarks at the Indian Consulate, Mr Tharoor noted the visit by the members of the all-party delegation to the 9/11 Memorial was their first stop. He said, "It was obviously a very moving moment for

us, but it was also meant to send a very strong message that we are here in a city which is bearing still the scars of that savage terrorist attack in the wake of yet another terrorist attack in our own country."

"We came both as a reminder that this is a shared problem, but also out of a spirit of solidarity with the victims... It's a global problem, it's a scourge and we must all fight it unitedly." "Our idea is very much to

speak to a cross section of public and political opinion in each of the countries we're going to about recent events which obviously trouble a number of people around the world. The fundamental underlying problem remains and it's important that we try and enlarge your understanding of our thinking and our concern about what's going on." So it's for us an opportunity we will be in every country, meeting members of the executive, meeting members of the legislature, meeting big tankers and influential foreign policy experts, and at the same time interacting with the media and public opinion in every one of these places."

## People were upset by sudden stoppage of Gas supply by company

Commissioner News Service

Chandigarh : Residents of Chandigarh were seen grappling with significant challenges due to unanticipated power outages by the electricity provider, compounded by abrupt disruptions in the pipeline LPG gas supply. residents of Sectors 35 and 43 experienced an unannounced suspension of gas supply, exacerbating their inconvenience. We regret to inform you that IOGPL sent a notification providing households with only seven minutes to make alternative arrangements before the gas supply was discontinued at 12:30 PM. This abrupt notice is highly unreasonable. Many households have relied on this company and surrendered their LPG cylinder connections in favor of IOGPL's services.

Furthermore, it is particularly challenging for elderly individuals to manage such a sudden

disruption within such a short timeframe of seven minutes. During this difficult time residents approach their councillor and RWA for relief as such I request that prior notice of atleast 24 hours must be issued in case of maintenance of system said the councillor Premlata and President AAM adami party (Women wing) .

## Due to negligence , youth loses life

Commissioner News Service

Mubarikpur (Mohali) : Father of deceased Sunil Yadav 40 yrs a contract labourer has accused the chemical plant management of utter negligence , Mr Sunil engulfed by toxic gases during night hours which led to his death. Even for over three days serious matter was kept buried due to the negligence of the administration.

Secretly at a small pvt clinic, medication was administered to ailing Sunil Yadav. His wife and daughter are holding the plant manager responsible for the life , he lost leaving

family behind to shiver and struggle. Sources revealed, it is not first time, earlier too 4,5 times , catastrophic fatal events took place ,every time the chemical unit escaped quietly.

## Pkl police assumes high-tech to take on crime

Commissioner News Service  
Panchkula : In the metropolitan town various departments were asked to use modern web portals and AI apps to make policing more efficient ,fast and transparent . As part of its continuous efforts to prevent crime and speed up in investigation , police in Panchkula are mulling a slew of measures . A key meeting in this regard was called by DCP ( crime ) Amit Dahiya at the Mansa Devi office, Sunday .Amit Dahiya put forth a video presentation to drive home the point that proper use of modern technologies can help the police reach crimi-

nals in less time and improve their overall functioning . He emphasised that in today's digital age , it is essential for the police to be technically equipped and skilled to tackle crime and investigation . Drawing attention to how cyber criminals are using new and shocking tricks , he

said police personnel must stay updated and alert to outsmart them . He also shared some important cyber safety tips , such as not giving safety unnecessary permissions to apps using only trusted apps , and reporting any suspicion of data theft immediately to the authorities concerned.

## Northeast emerges as a front-runner in India's growth

Commissioner News Service

New Delhi : "Several central ministers had visited the northeast over 700 times, staying overnight to deeply connect with the people and understand the region's needs,said Prime Minister Narendra Modi on Friday . Mr Modi said the northeast, once known merely as a frontier region, has now become a front-runner in India's growth story.

At the Rising Northeast Investors Summit, Modi said, "Developing East India is very important, and the northeast is the most important part of East India. For us, East

doesn't just mean a direction; it means empower, act, strengthen, and transform. This is our government's policy for East India. This policy and priority have brought our Northeast to the centre stage of growth.

## Pakistan will become Trump's crypto hub under the care of Shahbaz Salman

Islamabad :The echo of US President Donald Trump's crypto business has now reached Pakistan. Pakistan is reportedly going to be the new destination of crypto firms supported by Trump and his family. The command of this company will be in the hands of PM Shahbaz Sharif's son Salman Shahbaz himself. This entire network is being set up through a suspicious blockchain firm Highland Systems in Dubai named Salman Sharif. With the help of Highland Systems, the Pakistani govern-

ment will develop blockchain and crypto mining technology. Trump's son Eric Trump and top military contractors of Pakistan are also partners in the company.

In fact, investors close to Trump and the crypto lobby are already angry with the strict regulations in America. In such a situation, they are looking for countries where the rules are relaxed and there is

direct coordination with the power. Pakistan has emerged as a stronghold at this time. Reasons like economic uncertainty and the government's readiness to improve relations with America are making Pakistan an ideal country for Trump's fan to make a crypto hub. Let us tell you that the Shahbaz government is also planning to recognize crypto as a legal currency.

## India gains \$4 trillion, fourth largest global economy -IMF

Commissioner News Service

New Delhi ; According to IMF data , India has officially surpassed Japan to become the fourth largest economy in the world , according to NITI Aayog. CEO VR Subrahmanyam cited IMF data at the 10th Governing Council meeting of NITI Aayag on Saturday. Subrahmanyam highlighted favourable geopolitical and economic conditions for India . "We are the fourth largest economy as I speak . We are \$4 trillion economy as I speak " Subrahmanyam said Subrahmanyam. The IMF data confirms that India's economy is now larger than Japan's . " It is only the US , China and Germany which are larger than India , and if we stick to what is

thought , through , 25-3 years . We will be the third largest economy" he added .

In response to a question about US president Donald Trump's recent comment that he expects Apple I phones said in the US to be manufactured in America and not in India or any other place , Subharyamam noted , What the tariff will be uncertain .

Given the dynamics , will be a cheap place to manufacture"

Subharyamam also revolded that a second round of ascot monotisation is in the works will be announced in August . Citing IMF data , Subharyamam said India today is larger than Japan ,Till 2024 , India was the fifth largest economy in the world.
