How come "Central Town" on Shaamlat land, Nagla road, comes up against Supreme Court verdict

commissioner News Service

Zirakpur : Since the verdict of Honourable Supreme Court of 2011 in the case of Jagpal Singh Vs State of Punjab had explicitly prohibited the transfer / mutation of Shamlat land, it has to be unanimously enforced on to "Sannat Realtors" the owner Mr Sunny Garg of Central Town, Nagla Road , Zirakpur .Notwithstanding , the verdict has to be honoured by Punjab Govt and the adverse proceedings must be halted, plead several residents of the Nagla village. Against the infringement of Supreme Court verdict , the FCR Anurag Verma has already dismissed Naib Tehsildar Dhut for violating the law as he executed the Shamlat land mutation of over 10,000 kanals at Seonk village illegally in favour of private party .The Punjab Common Land act 1961

also does not allow the transfer to any private individuals. The inquiry report revealed that Dhoot had sanctioned the mutation despite clear instructions from the Revenue Department and a Supreme Court judgment prohibiting the transfer of shamlat land to private parties. The illegitimate massive

tion of unapproved constructions of 'Central Town' would, one day, become monstrous task, if the timely action is not initiated against the on going construction beside the Nagla road. It is pertinent to highlight here that no structure can be raised/built on the shamlat land of the gover nment / p an c h a y

at, nevertheless on the Nagla road, 'Sanat Realtors' owned bySunny Garg has purportedly engaged in constructing the colony sans any valid architectural plan. The Commissioner News Service endeavoured its best to contact the owner of the ongoing project but the owner had reportedly tried to evade the scribe and had instructed his sensitise staff about his

mobile number or where abouts to any visitor or client.

The clandestine dealing itself speaks volumes on the legality of the proposed Central Town. The sale manager of the 'Sanat Realtors' however said the land was ancestral and no customer was required to worry as they were safe in the hands of the said realtors. No one, at this juncture , should forget the deeds of the former Executive Officer Girish Verma who amassed several crores of rupees by passing wrong architectural layouts and neverchecked the practically built up houses or the commercial buildings.

CM Bhagwant Maan raids tehsil office to appraise routine functioning

commissioner News Service

Zirakpur : In view of the ongoing agitation by the revenue tehsildars ,Chief Minister Bhagwant Maan on Tuesday. (noon hours) cautioned the agitationists not to take lightly as he could issue employment letters to the unemployed degree holders.

The government will not issue licences for undertaking the corrupt practices in the state as people were being harassed for

not indulging in corrupt dealings. Mr Maan addressed to the hardships being faced by the people as the registry work was stuck up and tehsildars were demanding the release of their three counter-

parts. Bhagwant Maan instructed the staff workers to sort out the hardship being faced by the buyers of the plots, flats in the unauthorised / u n l i c e n c e d colonies.

Violators of CHB houses to face heavy penalties

Commissioner News Service

Chandigarh :The issue of imposing penalties was discussed and proposed. "Unlike the UT estate office, which imposes misuse charges and building violation penalties, the CHB lacks adequate punitive power in such type of violations.In the board meeting it was recommended that on the lines of the estate office ,the CHB should also impose penalties to dissuade people from violating the laid down the building bylaws said a senior UT official who attended the meeting. From the date of issuance of the show cause

notice the levying of the penalty charges starts. The CHB officials now want to follow this procedure against the violations in the CHB allotted properties also. . "The sole issuing of the show cause notices by the CHB remains an ineffective tool to discourage viola-

tion and enforce compliance with the building bylaws. Hundreds of show cause notices are issued without any remedial measures taken by the allottees," said the official. Currently , CHB issues notices and gives time to the allottees to remove these violations. If the allottees does not remove these violations within the stipulated time then the CHB demolishes these violations and recovers demolition expenses from the violator . The meeting of the CHB board of directors was held after a gap of more than 21 month.

AI to fuel a pleasant
broader boom ?

We have been here since long. In the 1960s, computers were too enormous and expensive to be used by anyone but the largest government agencies and businesses had fallen into the addiction. Nevertheless, so great were concerns about ‘automation’ that US President Lyndon Johnson launched an inquiry into the danger that computer-based technologies might “eliminate all but a few jobs.” By the 1970s, there was no sign of a productivity surge and fears of mass technological unemployment subsided. Personal and business computer use then soared in the 1980s; but by 1990, as economist Robert Solow famously observed, information technology (IT) was “everywhere but in the productivity statistics.” With mobile phones, the internet, ever-expanding hardware capacity and growing software capabilities promising a new connectivity-based productivity revolution, everyone at the World Economic Forum in 2000 wanted to hear from the leaders of “information and communications technology” (ICT). John Chambers predicted that ICT would enable the US economy to grow by 5 per cent per year for the foreseeable future

and that “The internet will form half of gross domestic product by 2010.” There was ‘big data’, ‘the digital economy’, ‘machine learning’ and, now, artificial intelligence. None, so far, has had any measurable impact on medium-term growth rates. A case can be made that generative AI, owing to its self-learning capability, represents more than just another stage of technological development. But there are still two reasons why it, too, may not show up in growth data. Using basic internet search and now sophisticated large language models, lawyers are increasingly able to analyse every possible precedent before presenting their arguments. But if the opposing law firm can do the same, the result is an arms race in which neither party has a durable advantage. Marketing departments can use AI to produce ever more targeted and effective communications to influence consumer choice. If their competitors are doing the same, however, there is no benefit to end consumers, and no boost to GDP. AI will almost certainly deliver huge human welfare benefits almost for free. The late Martin Feldstein, writing in 2017, correctly

observed this phenomenon at work in the previous three decades of remarkable IT and ICT progress. By then, smartphones boasted many thousands of times more processing power and memory than the biggest computers of the 1960s, enabling vastly more communication, data storage, video and image sharing, and so forth. Yet, the share of GDP accounted for by the telecom sector had hardly changed, leading Feldstein to conclude that “low growth estimates fail to reflect the remarkable innovations in everything from healthcare to internet services to video entertainment that have made life better during these years.” If, by 2070, an AI-enabled acceleration of knowledge acquisition furnishes us with a wonder drug that gives everyone a 100-year life of perfect health and which is produced in wholly automated factories powered by cheap nuclear fusion, it will count for almost nothing in global GDP. The more powerful a technology, the more rapidly it disappears from measured GDP. At the same time, AI will have massive potential to exacerbate the harms to human welfare that previous generations of ICT have already produced.

Worth Rs 20 crore fuel saved by
e-buses within 2 years

Commissioner News Service
CHANDIGARH : About 25.28 lakh litres of diesel worth Rs 20.80 crore has been saved within two and a half years by plying electric buses on local routes. Procured in November 2021, 80 electric buses are in service in the tricity at present, said a spokesman of the UT Transport Department. The electric buses had covered 1.26 crore km till August 16 on intra-city routes, thus saving over 25.28 lakh litres of diesel besides preserving environment. These buses have helped prevent 6674.91 tonne of CO2 emission. The e-bus fleet of the department included vehicles of Ashok Leyland and Eicher. In order to provide eco-friendly transportation in the city, the department plans to procure 100 more e-buses this year. The administration has plans to replace the entire fleet of 350

diesel buses of the Chandigarh Transport Undertaking (CTU), running both on local as well as suburban routes, with electric ones by 2027-28. Each bus covers a distance of nearly 130 km on a single charge. It takes nearly two hours to fully charge a vehicle. With a seating capacity of 36, a bus can carry a maximum of 54 people at a time. On an average, each bus covers 200-300 km a day. The State-Level Steering Committee (SLSC) has decided to replace 100 diesel buses with e-vehicles sanctioned by the Ministry of Housing and Urban Affairs to Chandigarh under the Centre-sponsored PM

e-Bus Sewa Scheme. The ministry will be requested to allocate 80 more buses to the city under this scheme. Apart from public transport, the share of private electric vehicles (EVs) is also increasing. Since the implementation of the EV Policy in September 2022, as many as 3,281 electric two-wheelers and 1,785 four-wheelers have been registered in the city till July 15. According to the data provided by the Registration and Licensing Authority (RLA), 352 electric two-wheelers and 114 four-wheelers were registered from September to December in 2022. The highest number of 2,103 electric two-wheelers and 1,013 four-wheelers had been registered in 2023 and 826 two-wheelers and 658 four-wheelers till July 15 this year in the city.

operations in Mohali

Commissioner News Service
MOHALI : “Many projects, including the dispensary in Sector 69, the Phase 6 hospital, and the dispensary in Sector 79 have not been completed” said the former Punjab Health Minister and senior Congress leader Balbir Singh Sidhu. Mr Sidhu accused the AAP-led government of going slow on several health projects in the district. The Congress leader stated that the total cost of the Sector 79 dispensary was approximately Rs 1.05 crore, out of which only work worth Rs 45 lakh had been completed. He said, “The dispensary in Sector 79 is now

becoming a ruin under the AAP government, which had sought votes in the name of a world-class health model and was not paying attention to any projects related to this department.” The hospital in Phase 6 was also running without adequate staff. Repeated requests to make necessary arrangements and fulfil the requirements fell on deaf ears, he added.

Congress MP addresses
people’s grievances at
Janta Darbar in ManiMajra

Commissioner News Service
CHANDIGARH : The Janta Darbar in Modern Housing Complex on Monday convened by Manish Tewari MP on Monday was organised by District Congress president Surjit Dhillon, block president Sanjeev Gaba, besides Narendra Singh Nandi, KR Mahajan and Manpreet Sethi. Mr Tewari got engaged with the local populace, addressing their grievances and pledging resolutions. The event was also attended by Chandigarh Pradesh Congress president HS Lucky and councillor Darshna Rani. In a significant move to bolster the security infrastructure of Mani Majra, Tewari declared a grant of Rs 10 lakh from his MP fund for the installation of CCTV cameras in the locality. He emphasised that the initiative is aimed at enhancing public safety and will be executed promptly. Criticising the BJP, Tewari said the much-touted 24-hour water supply in Mani

Majra, inaugurated by a Union Minister, has proven to be a mere illusion. He pointed out that despite three attempts at laying pipelines under the project, residents receive water for only 3-4 hours daily. Upon raising the issue in Parliament, he was met with a response indicating that trials are still ongoing. He lamented the imposition of a Rs 500 crore loan on the Municipal Corporation, which has led to increase in property tax and sewerage cess. Tewari accused the BJP government of retaliating against the citizens of Chandigarh for their electoral choice in favour of the Congress. Lucky launched a vehement critique of the BJP government, asserting that the Central Administration is adept at making hollow promises and misleading the public.

Cancellation of allotment over
rental dues of 20 small flats

Commissioner News Service
CHANDIGARH : With the fresh cancellation, the board has annulled nearly 200 such allotments in the past three months, citing outstanding payments running into crores. The Chandigarh Housing Board (CHB) has carried out another salvo over the allotment of 20 more units under the Small Flats Scheme over non-payment of dues. Such flats, allotted under a rental scheme, required occupants to pay a minimum monthly rent starting from Rs 800. However, many allottees have failed to deposit the

rent for several years, leading to a massive outstanding payment. The CHB stated that despite issuing multiple notices and offering hearings, the defaulters did not clear their dues, leaving it with no option but to cancel the allotments. The latest 20 cancelled flats are located in Sectors 56 and 38 (West), Dhanas and Ram Darbar. A total of

Rs 30.54 crore in the form of rent was pending against these units. Each defaulter reportedly owed the CHB between Rs 1.50 lakh and Rs 1.55 lakh. The board has issued notices, directing residents to vacate the flats within a month. Eviction proceedings would be initiated against those failing to comply with the direction. The board cancelled units of rent defaulters after audit objections. The board has warned the remaining defaulters, who owe Rs 1 lakh or more, to clear the dues or face similar action.

To curb air pollution no fuel for vehicles older than 15 years from April 1

Commissioner News Service
NEW DELHI : The directives on no fuel supply to older vehicle would come into effect after March 31 said Manjinder Sirsa, BJP leader who recently took charge as the Environment Minister. The Minister after holding a meeting with officials, said the BJP government would take stringent steps to curb vehicular emissions in the city. The Delhi Government on Sunday announced a series of measures to curb air pollution, including denial of petrol or diesel to vehicles older than 15 years at fuel stations across the national capital. "We are installing gadgets at petrol stations to identify vehicles older than 15 years. No fuel will be provided to them after March 31," Sirsa said. Teams would be formed to identify vehicles older than 15 years and prevent these from entering the city. "We will rope in Delhi University students for a plantation drive. The minister said the government would make it mandatory for big hotels, office complexes, construction sites as well as Delhi airport to install anti-smog guns on the premises. "We are going to make it mandatory for all high-rise buildings and hotels in Delhi to install anti-smog guns. Commercial complexes will also have to install these," Sirsa said. Telangana authorities exploring deployment of robos as tunnel collapses

Commissioner News Service
Nagarkurnool (Telangana) : Officials would need to adopt robos leading the rescue operation to use robos inside the tunnel. It would be subject to potentialities of any danger to the rescue personnel. Ten days after the partial collapse of the SLBC project tunnel that left eight persons trapped, the Telangana government is exploring the option of deploying robos in the rescue operation to prevent any threat to the rescue personnel, officials said on Monday. Large quantities of slush and water inside the tunnel posed a challenge to the teams involved in the rescue operation.

Eight persons -- engineers and labourers - have been trapped in the Srisailem Left Bank Canal (SLBC) project tunnel since February 22 and experts from the NDRF, Indian Army, Navy and other agencies are making relentless efforts to pull them out to safety. Nagarkurnool Superintendent of Police Vaibhav Gaikwad said the possibility of involving robos in the ongoing rescue efforts is being considered as

safety of the rescuers is important. "We are exploring all possibilities, whatever are the best equipment, best manpower, the experts (involved in such rescue activities). We are roping in all of them. (Using) robos came up during discussions yesterday. We are exploring that option also," he told. The robos can be useful in such conditions, he said. Gaikwad said the rescue work is going on in full swing, including dewatering and removal of silt. On the tunnel boring machine which was stuck in the muck, the police official said the machine is being cut to create way to go ahead.
