- Depression, anxiety, and PTSD recovery
- Concussion and cognitive rehabilitation
- Case management

OUR APPROACH

Individualized Care

We provide an individualized approach, and treatment is always tailored to a client's injury and goals.

Community Based

We travel to meet clients where care is needed - at home, work, school, or in the community.

Holistic Approach

We address a client's physical, cognitive, and emotional health, as well as their environment.

Interdisciplinary Collaboration

We communicate with stakeholders, including doctors, rehab providers, funders, lawyers, and employers.
