

n land originally owned by Florissant's founder Judge Costello, this house was built in 1885 by the McLaughlin family. Find the photo located in our dining room showing this house and the General Store owned and operated by the McLaughlins. Beside the rumors of being haunted, our building has housed many businesses and activities which have added to the strong cultural heritage of the Pikes Peak region. In this spirit, we invite groups to reserve our meeting rooms for gatherings.
