Why Choose Energy-Efficient Upgrades?

By participating in these programs, your business can:

1. Save up to 70% on energy-efficient upgrades, including installation and labor costs.
2. Cut energy and water costs, improving your bottom line.
3. Enhance indoor visibility and improve air quality, creating a more inviting and comfortable space for both customers and staff.
4. Reduce your carbon footprint by making your business more environmentally responsible.

Equipment Upgrades Eligible for Incentives:

- Lighting retrofits (fixtures, sensors, and controls)
- HVAC systems, including programmable thermostats and smart controls
- Commercial refrigeration equipment
- Motors and more

Who is Eligible?

These programs are designed for businesses and organizations with an average energy demand of no more than 200 kW per month.

- Small Businesses, Schools and Colleges
- Local Governments and Municipalities
- Churches and Nonprofits

PROVIDERS

- Up to 70% of costs covered, with work completed by PSE&G authorized contractors.
- Interest-free payments over 60 months or a lump-sum payment option.
- Immediate discounts on project costs with no waiting for rebate checks.
- Turnkey solution: We handle everything from product selection to installation.

Ready to Start Saving?

With Rich Energy Solutions, upgrading your business to energy-efficient systems has never been easier. Let us help you take advantage of these exclusive programs and start saving today!
