*Verse 1*:
G              G+                    G6        G7
It's right that I should care about you
      Am                                  D      D+
And try to make you happy when you're blue
      G         G+        C             Cm
It's right,   it's right,   to feel the way I do
      G          Am     D       G       /
Because,  because   I  love you

*Bridge*:
Am                D                        G    Em
      It's wrong to say I don't think of you
Am                    D                        A7                      D    D+
      Cause when you say these things you know it makes me blue

*Verse 2*:
 G              G+                    G6       G7
Give me one kiss and I'll be happy
 Am                         D    D+
Just,        just to be with you
      G          G+     C            Cm
Give me,  give me a chance to be near you
      G          Am     D         G       1) E♭ D     2) E7
Because,  because   I  love you
