

U No Me

Music and lyrics by Paul Turner

Intro: Instrumental Verse

Cm

You know me I'm the guy who likes to play something new
And I know you are always trying to do the best you can do

Fm

And you know I'm pushing you to do just a little bit more

Cm

But we both know you always leave better than you were before

Chorus:

G

F

You know me and I know you

C

We both know because we know each other there's not much we can't do

Cm /

You know me I'm the guy who says "you can play whatever you say"
Now you know when you close your eyes you can feel it even better that way
I hope that you know that counting is your friend
And no matter what it takes you'll play it fine in the end

Chorus

Instrumental Verse

"Triplet Feel Verse":

Cm / /

You know me -

I know you

Fm / /

You might know

That most the time

I like to find the patterns in a song
are doing your best to play along

because you heard me say it before
we're livin' in a world of 4's

You know if you have a question you can always ask
But I know you you start laughin' when you play really fast
You should know I see you growin' and I'm proud what you've learned to do
But you know sometimes it's true that I'm still learnin' too

Chorus:

G

F

You know me and I know you repeat line

C

We both know because we know each other there's not much we can't do

Out: Instrumental Verse

Cm /
