

# PATCH PLACEMENT ON UNIFORM

Both the GDA Patch and Flag Patch are placed on the left side of the uniform.

The GDA Patch is over the heart or left chest (do not line up with seam) and the Flag is on the left sleeve approx 2 fingers width down from shoulder seam.

It is recommended that you have the patches sewn on. The adhesive on the back is not meant to keep them in place when ironed on and will likely come off in the wash. Below is a recommended Dry Cleaner nearby that is familiar with sewing them in the correct place. It is ok to come to class without your top if the patches are being sewn on as it may take a few days to complete.
