

## Limited Lifetime Warranty

For the original owner's lifetime, from the purchase date, SwedgeLock will repair any defect in manufacturing finish, material or workmanship, free of charge to our dealer. This includes adhesion protection against chipping, peeling, or blistering of all standard colors and finish. In some local conditions, where a corrosive environment exists, protecting the paint may require a periodic polish or sealer to help prevent these harsh conditions from deteriorating the finish.

This warranty is invalid in the event of corrosive elements, improper installation, misuse, abuse or acts of God. This warranty is nontransferable and must be completed in full and a copy returned within thirty days after purchase.
