

What is this?

The TCRN exam was developed by BCEN in order to challenge nurses working throughout the trauma continuum of care and allow them to prove their expertise in and knowledge of trauma nursing. Solheim Enterprises developed, now in its 2nd edition, the benchmark TCRN Review Course. The course has been taught worldwide to thousands of nurses and seeks to set the standard within the trauma nursing profession.

Materials

Course manual will be provided at the time of check in on the first day of the course.
