

# Breakaway Oracle Dowsing Arc

# How to work with the Breakaway Oracle Dowsing Arc

## Prepare your Pendulum:

- Cleanse your pendulum with incense smoke, breath or wash quickly and dry.
- Bond with the pendulum by placing it in your left hand with the point towards you. Hold the pendulum and ask it to share its energy with you.
- Pendulums do not always want to work with us. The more time you take to bond your energies, the faster it will share information with you.

## Other ways to bond:

- Carry the Pendulum around with you.
- Sleep with it under your pillow.
- Hold it in your hand as you are working.

It is important to create a bond with the Pendulum because you wish to be sure that your answers are correct.

## Setting the intention:

For all information to be received in 100% truth and neutrality.

Working for the highest good of all concerned, in perfect love and perfect trust.

## Step One: Introduce the sections to the Pendulum

Hold your pendulum in the centre of the arc and introduce it to each section. Swinging over each section, back and forth whilst saying their names.

## Step Two: Asking a question

Hold your pendulum at the center point and begin to swing it in a clockwise direction.

Phrase a question and hold it in your mind.

Allow the pendulum to slow down and gravitate towards a section.

**Step Three:** Check the cards imagery and guidebook for your guidance.

## Note:

Each Pendulum has its own personality and may guide you to work with it differently.

Trust your inner knowing and develop your own way of working.
