43. TARGETING - EMPOWERED INTERFERENCE

How to work with the Breakaway Oracle Pendulum Dowsing Chart

Prepare your Pendulum:

- Cleanse your pendulum with incense smoke, breath or wash quickly and dry.
- Bond with the pendulum by placing it in your left hand with the point towards you. Hold the pendulum and ask it to share its energy with you.
- Pendulums do not always want to work with us. The more time you take to bond your energies, the faster it will share information with you.

Other ways to bond:

- Carry the Pendulum around with you.
- Sleep with it under your pillow.
- Hold it in your hand as you are working.

It is important to create a bond with the Pendulum because you wish to be sure that your answers are correct.

Setting the intention:

For all information to be received in 100% truth and neutrality.

Working for the highest good of all concerned, in perfect love and perfect trust.

Using the Breakaway Oracle Pendulum Dowsing Chart

Step One: Develop a method of communication with the Pendulum - Yes or No. Hold the Pendulum and ask it politely but firmly to show you “its Yes”. Once you have a movement establish - now ask the Pendulum to show you “its No”. Each Pendulum is unique.

Step Two: Hover your pendulum over each section to introduce your pendulum to each of the names.

Step Three: Phrase your question to ensure a Yes or No answer. Hold the Pendulum over each section and ask, is there a topic here that applies to myself / my client? If a yes, then go deeper and check each row for a confirmation.

Step Four: Check the cards imagery and guidebook for your guidance.
