Helping Your Business Flow Smoothly

We provide comprehensive Fractional CIO and CTO services to evolving organizations, advising and executing Information Technology Strategies without the traditional overhead, costs, and complexity.

Who We Are

Glass River Technologies brings decades of real-world IT leadership from enterprise, government, and high-growth private sector environments. We've built and led technology organizations through transformation, modernization, and rapid scale.

Rooted in hands-on experience across infrastructure, software, security, and systems strategy, we dive deep to help executive teams solve complex challenges and turn technology into a driver of long-term business value.

Why Choose Us

Experienced Leadership

Decades of hands-on technical and strategic experience in enterprise, government, and private industry.

Strategic Alignment

Technology decisions grounded in business goals, not just technical trends.

Comprehensive Expertise

End-to-end capabilities across infrastructure, SaaS, ERP, data, and security.

Our Services
