

# Sister City News

## Canmore, Alberta, Canada & the Bow River Valley

Our Sister City team visited Banff, Lake Louise and the Bow River Valley recently. After meeting with the Canmore Mayor and several community members, the team determined that Canmore could be a match for Sedona.

Several Sedona leaders and their Canmore counterparts will soon meet each other on a zoom conference call. In February, Sean Krausert, Canmore Mayor will visit Sedona for get acquainted visit.

Surrounded by Alberta provincial parks and located ten miles south of Banff, Canmore has many similarities to Sedona: an inviting destination surrounded by the natural beauty of the Canadian

Rockies, a tourist population of over 2 million yearly, and a developed focus on sustainability (Master plans for environment, tourism, traffic, energy transition).

Canmore, founded in 1884, has a diverse and growing younger population of 15,990. Unique to Canmore is the Nordic Centre, an international training site for cross-country skiing. Annual events and festivals include mountain biking marathons, the Winter Carnival and an annual Folk Music Festival.

*Sedona Sister Cities Association is a volunteer organization with the Mission of Promoting Peace Through Mutual Respect, Understanding and Cooperation.*
