The Ribbon Collection

Engineered for performance
Designed to look amazing

Finishes

An award-winning trio of touch-free fixtures that offers a modern, intuitive solution to the flow of the washroom experience.

- + A sleek, minimalist design created for high-traffic environments
- + Integrated anti-splash and touch-free technology that simplifies maintenance
- + Designed to keep water in the basin, supporting cleaner and safer washrooms

Fixtures

Hand Dryer

Tap

Soap Dispenser

Revolutionised user flow

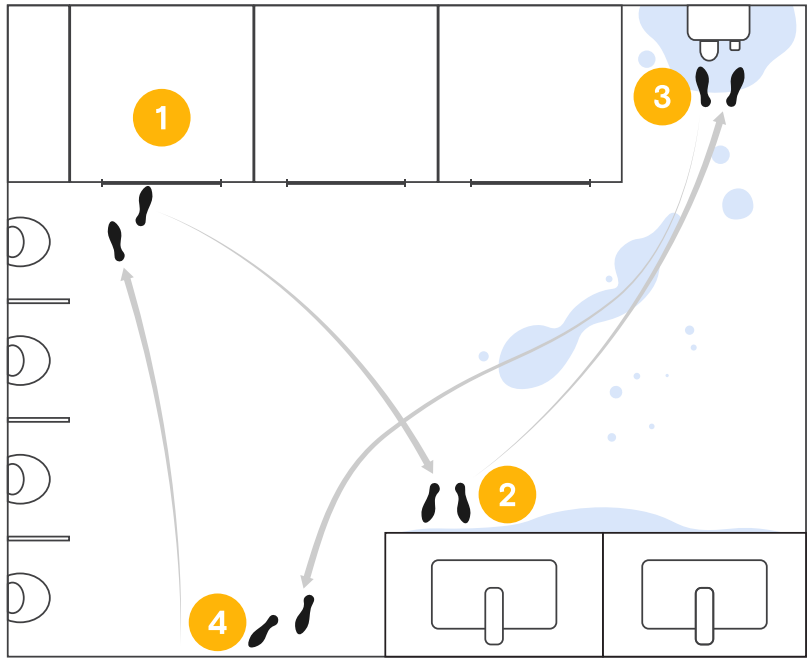

In a typical washroom experience:

- 1 Users enter and use facilities
- 2 Wash hands
- 3 Walk to dryer with dripping wet hands
- 4 Exit

As users travel between key areas, water is trailed across the washroom floor. Excess water from the hands is blown to the floor by a separate hand drying unit, creating an ever-increasing puddle throughout the day, creating an unsightly hazard that will require continuous maintenance.

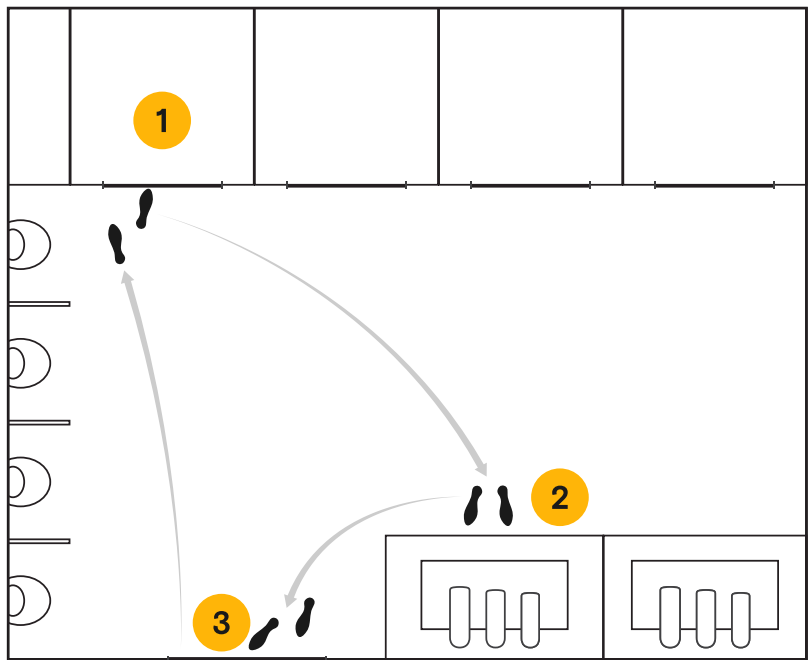

The Ribbon Collection’s beautifully designed set of fixtures with its innovative over-basin hand dryer, minimises mess and streamlines the user experience.

Typical washroom scenario

- ✗ Water trailing on floors
- ✗ Water is blown on the floor by hand dryer
- ✗ Inefficient use of space

Ribbon-enabled washroom scenario

- ✓ Streamlined process
- ✓ No safety hazard on floors
- ✓ Less maintenance required

Flexibility in specifying

Each fixture in the Ribbon Collection was designed to function optimally either as a standalone product or arranged together according to the needs of any space.

The specifier chooses how much, or how little, serves the visual and practical needs of their project. Fixtures are easily configurable to best fit the environment and user behaviour. The Ribbon fixtures seamlessly retrofit into any contemporary basin.

- + Specified in pieces
- + Custom finishes available
- + Fits any commercial basin for an easy upgrade

Functional + design benefits

A smarter system that saves time and eliminates mess

Sanitary

Customisable

Touch-free

Streamlined user flow

Easy to maintain

Durable

The Ribbon Sensor Tap

Beautifully touch-free

- + **Flow rates**
Available in 1.89 or 3.8 L/min to meet sustainability standards
- + **Cascade aerator**
Minimises splashing, keeping water contained within the basin
- + **Easily configurable**
Programmable to run for up to 20 seconds to meet CDC-recommended handwashing times effortlessly

The Ribbon Soap Dispenser

Luxury + reliability

- + **Foam soap efficiency**
Calibrated for foam soap, which feels luxurious and reduces overuse.
- + **Multi-feed capability**
Connects up to six dispensers to a single reservoir, simplifying maintenance in high-traffic washrooms.

The Ribbon Hand Dryer

Innovative efficiency

- + **Over-basin design**
Keeps water in the basin, preventing wet floors
- + **Quiet operation**
With a 71 dB output, it's the quietest commercial hand dryer
- + **HEPA filter option**
Improves air quality, ideal for spaces focused on high wellness standards

Wellness

The Project

Adaptive reuse of a DTLA warehouse site for a new POC-focused private training facility. TSL's Ribbon Collection was specified for the quality and design, as well as the quick lead time. TSL also delivered custom powder coating for some of the larger pieces not eligible for PVD finishing to keep the aesthetic consistent.

- + Durable fixtures for high-traffic areas.
- + Custom powder-coated finishes.
- + Locally manufactured basins.
- + ADA-compliant accessories.

Products

- + Monolith A Series
- + The Ribbon Tap
- + The Ribbon Soap Dispenser
- + Radius ADA Grab Bars
