

INTRODUCING GROWER360

Grower360 provides a portal to view your account in real time, see past activity, and view the details needed to make informed decisions.

Designed with a “mobile first” user experience, access your data on any device... anywhere, anytime! View your invoices and balances, make payments, check propane tanks and tank history, access field maps and detailed activity for each field, and review weather data.

▶ PRODUCT TRACKING

- **Purchase History:** Easily access records of previously bought or used products.

▶ FINANCIAL INSIGHTS

- **Statements & Payments:** View statements online and opt out of mailed statements.
- **Invoices & Bookings:** See invoices, bookings, and make payments online (CC with 3% surcharge, ACH up to \$50,000).
- **Account Overview:** Get a comprehensive overview of your current balance.

▶ DOCUMENTS & COMMUNICATION

- **Digital Documents:** Access pricing books, pamphlets, and soil test results instantly.
- **Notifications:** Receive updates about meetings, specials, and more directly to your device.

▶ FIELD MANAGEMENT MADE EASY

- **Field Level:** Define your boundaries and field names effortlessly.
- **Tillage Type & Crop Type:** Enter and track your tillage and crop information.
- **FSA Information:** Keep all your Farm Service Agency details organized.
- **Field Activity:** Receive blend tickets and invoices digitally, no more waiting for mail.
- **Field Plans & Weather:** Plan your field activities and get real-time weather updates for each field location.

▶ ENERGY MANAGEMENT

- **LP Tanks:** Monitor your LP tanks with estimated percentage remaining based on heating degree days.
- **Tank Monitors:** Link your tank monitor for even more accurate readings.
- **Delivery Tickets:** View your prior delivery tickets anytime.
