

## **Evidence of Harm Files EHT et al v. FCC**

The United States Court of Appeals for the District of Columbia Circuit (Docket No. 20-1025) ruled on August 13, 2021 that the FCC failed to respond to the following 26 volumes of evidence of harm, long term wireless exposure, impacts to children, testimony of people injured by wireless, impacts to the wildlife and the environment and to the developing brain and reproduction. The research studies in the volumes below were generally posted as abstracts, not the full articles. Comments filed by people who have been disabled by radiation sickness are included in volumes 22-25. Few Pennsylvanians are included in those volumes because Pennsylvanians for Safe Technology was involved in an advocacy project and was unable to participate in this. Evidence of harm in Pennsylvania is well documented in the numerous PUC cases some of which are now in the Commonwealth Court and Supreme Courts. Furthermore, we did not see the 6100 US Navy Studies showing harm listed (Naval Medical Research Institute and Naval MRI Glaser Report). We have a total of at least 7991 studies showing the harm of radiofrequency and microwave radiation on our website, [www.pasafetech.org](http://www.pasafetech.org). The ruling in this case can be found on our website at <https://pasafetech.org/legal-files> - please scroll down to Federal Court Files, 2021-0813-DC-Circuit-Case-20-1025-Judgment.)
