TOKEN WHITEPAPER

# INTRODUCTION

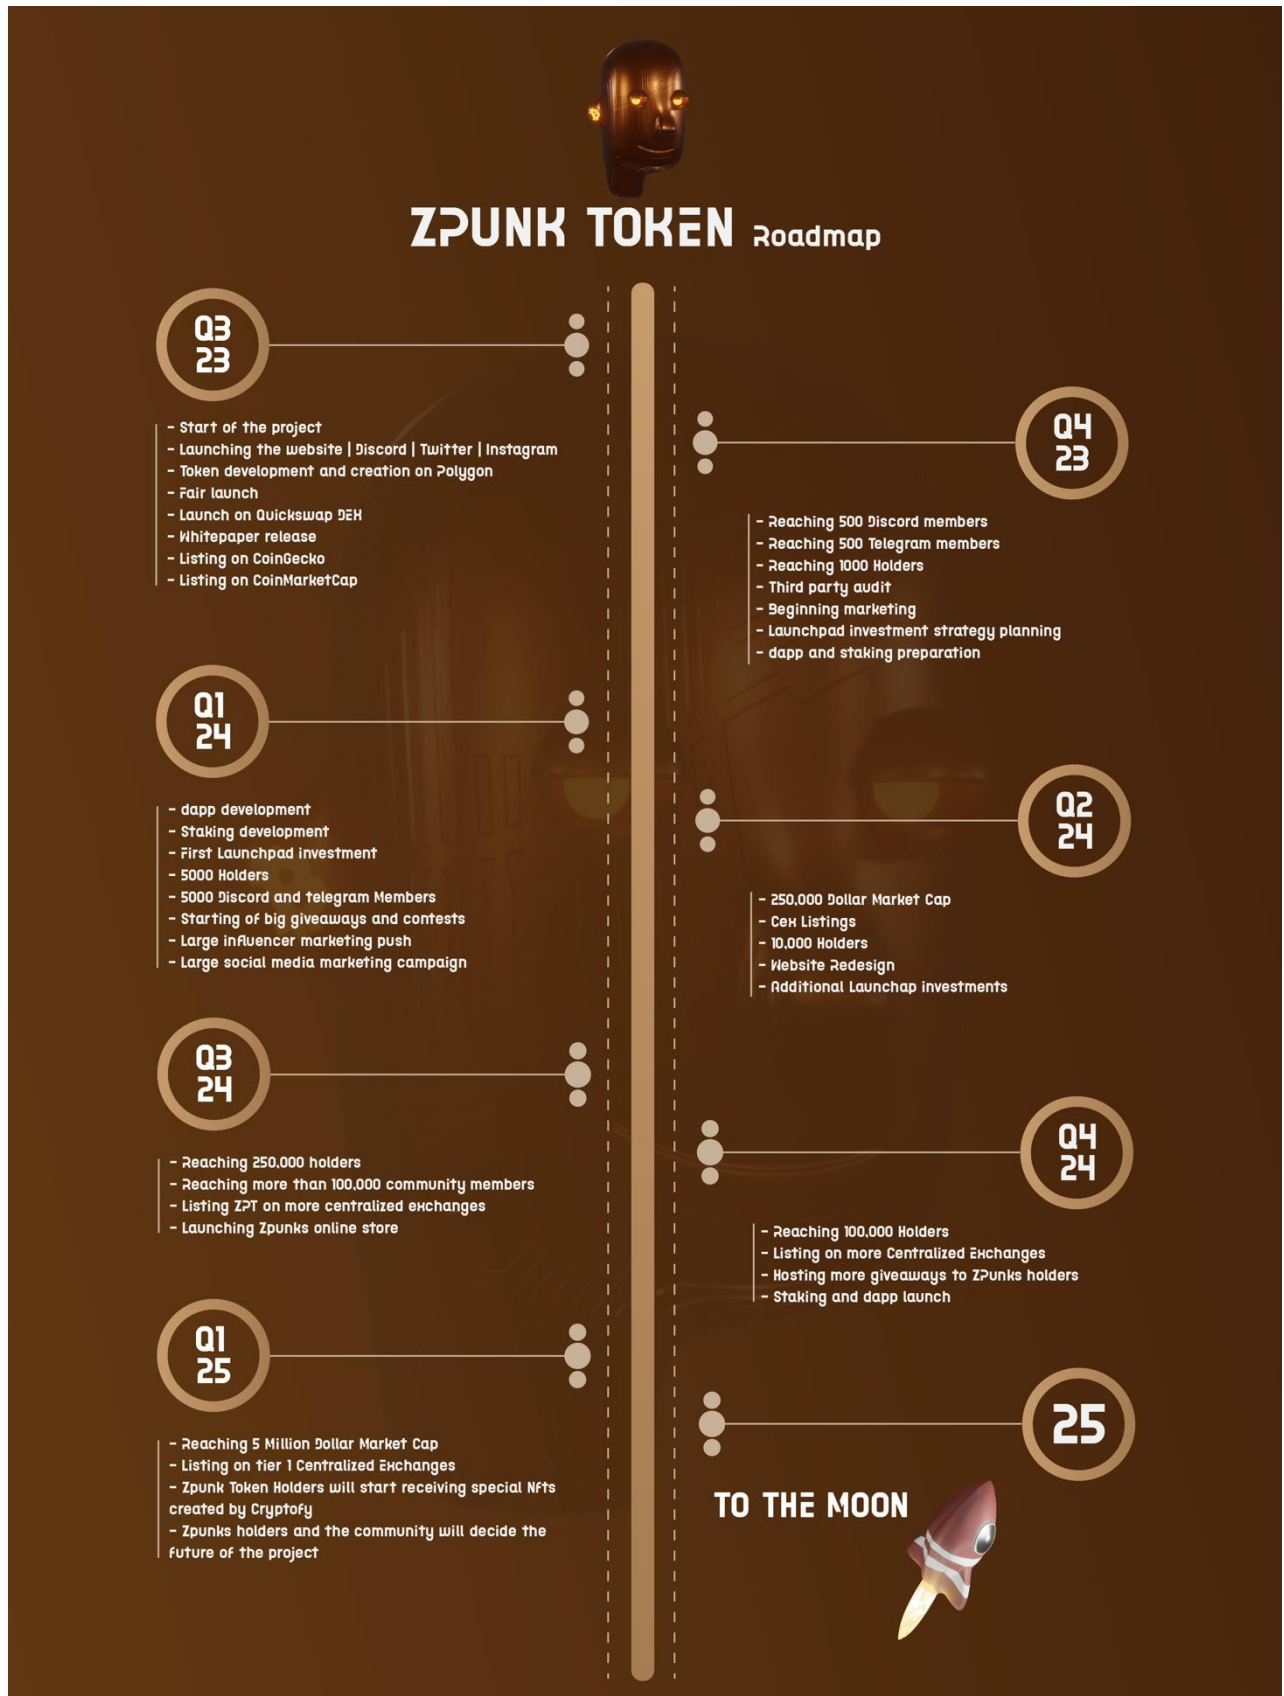

Introducing Zpunk Token: Empowering the Future of NFT Innovation.

In the dynamic realm of blockchain technology and digital creativity, a new era has dawned with the emergence of ZPunk Token. Designed as the quintessential utility token for our groundbreaking NFT project, Zpunks NFTs, this innovative cryptographic token stands as a testament to the evolving landscape of digital assets and decentralized ecosystems.

At its core, Zpunk Token represents more than just a transactional instrument; it symbolizes the fusion of art, technology, and utility. With the rise of non-fungible tokens (NFTs) reshaping how we perceive and interact with digital art, Zpunks NFT steps forward as a pioneering force, leveraging the power of blockchain to redefine ownership, creativity, and collaboration.

Zpunk Token empowers participants within the Zpunks NFT community, granting them access to an array of unique benefits and functionalities. As a utility token, its applications extend beyond conventional digital currencies, functioning as a key that unlocks a realm of possibilities within the Zpunks NFT ecosystem. Holders of Zpunk Token will not only have the privilege of participating in exclusive events and engaging with exceptional NFT content, but they will also play an integral role in shaping the direction of Zpunks NFT's development. This introduction marks the commencement of an exciting journey into the world of Zpunk Token. As we delve deeper into the nuances of its utility and the transformative potential it holds for Zpunks NFT, join us in exploring the fusion of innovation, artistry, and blockchain technology. Together, we are poised to redefine the future of NFTs, guided by the capabilities and opportunities presented by Zpunk Token.

# ROADMAP

# VALUES

## Transparency

Zpunk Token is supported by its community of enthusiasts. We encourage open communication and believe trust, transparency, and community are the 3 pillars of building longevity.

## Community

ZPunk Token is one of the best organically growing and most loved communities in crypto we believe that only together we are strong. Community is everything and Zpunk Token strives to include everyone from around the globe. We have multiple social media channels dedicated to our international communities.

## Trust

In the cryptocurrency market trust is paramount. That means full transparency not only in the community and development but also in security efforts. Zpunk Token will be audited by third-party finance and will lock the majority of the LP tokens. No rug pulls here only genuine Zpunks.

## Longevity

Zpunk Token is in for the long haul. The community is fostering and adopting long-term development of the ecosystem and foundation in efforts to drive real use cases.

# ECOSYSTEM

## Instant Rewards

A 1% fee is distributed to existing holders for every transaction network. That means you earn more Zpunk Tokens just by holding them in your wallet.

## Locked LP

Initial Liquidity tokens will be locked. Additionally, 1% of all transaction fees are added to liquidity.

## Investment Wallet

For every transaction network, a 1% fee will be sent to the investment wallet. The tokens in the wallet will be invested in the best crypto launchpads, and part of the profit from these investments will be distributed to the Zpunks NFT holders.

# Tokenomics

Total Fixed supply: 1,000,000,000 ZPT

**Scarcity:** Just like gold and other precious resources, the value of a token can increase due to scarcity. If the demand for the token increases while the supply remains constant, the price per token may rise.

**Deflationary nature:** Unlike fiat currencies, which are inflationary due to central banks' ability to print more money, fixed supply tokens can be deflationary.

**Predictability:** With a fixed supply token, buyers and users know exactly how many tokens there are, eliminating the risk of unexpected inflation that could devalue their tokens. This transparency can create trust and stability in the token's ecosystem.

**Value creation:** A fixed supply can incentivize users to participate in the network's activities that generate value, namely by staking or contributing to the community. This active participation could promote network growth.

**Fair distribution:** A fixed supply can also help to ensure a more equitable distribution of tokens. Since no new tokens are created, early adopters have an advantage over those who join later.

## Supply Allocation

Fair Launch: 20% (200,000,000 ZPT)

Reserve: 15% (150,000,000 ZPT) for CEX listings, giveaways, contests, burning, NFT holders rewards...

Staking bonus: 25% (250,000,000 ZPT) to be distributed to Zpunk Token stakers

Liquidity: 10% (100,000,000 ZPT) will be used to add liquidity to maintain a healthy price that can grow over time

Marketing: 10% (100,000,000 ZPT) will be used for marketing to spread the word about the Zpunk project (NFT (ZPN & ZPTN) and token (ZPT)) and grow the community

Team: 20% (200,000,000 ZPT) for further development and plans

# UTILITIES

ZPunks project focuses on providing added value for our holders through Utilities.

## Zpunk Token

Zpunk Token will be the first utility to be introduced as the currency in the Zpunks project. It will be used to reward Zpunks NFT holders, tip a mod or members for their good work or contribution, swap for other tokens on decentralized exchanges, and trade on centralized exchanges.

Zpunk Token is not only a utility token but also a governance token of the ZPunks Project, the more Zpunk Tokens you have, the more authority and influence you have for future roadmap and features.

**Staking and Rewards:** Holders can lock their tokens for a specific period to earn rewards. These rewards can be in the form of additional tokens, access to exclusive events, early access to new releases, or other incentives, encouraging token holders to actively engage and contribute to the ecosystem.

**Royalties:** Token holders will be the first to have the ability to buy new collection NFTs created later at the cheapest price.

**Utility in Partner Ecosystems:** partnerships or integrations with other projects or platforms where token holders can be used as a utility token. This expands the utility of the token beyond the Zpunks ecosystem, creating additional use cases and potential for adoption.

Zpunk Token will be also the main currency used to shop on the Zpunk online store.

**Launchpad investments:** all Zpunk Token transferred to the investment wallet will be used to invest in the best crypto launchpads, and part of the profit will be distributed to all Zpunks NFT Holders.

**Burning:** Based on the community votes, we will also use a part of our profits to buy back the Zpunk tokens from the open market. After we bought them, we will burn them forever. This will make the token extremely deflationary and help us to get the price up.
