

Delightful Day Christmas Card Holder

All images © 1990-2019 Stampin' Up!®

Supplies:

- **Stamp Sets** – Delightful Day (149466)
- **Card Stock** – Whisper White (100730); Scrap piece any color
- **Stamp Pads** – Shaded Spruce (147088); Real Red (147084)
- **Misc.** – Paper Trimmer; Scoring tool; pencil; red Fine Sharpie; Tear and Tape Adhesive (138995)

Measurements:

- Card Stock 1 4 inches x 9 inches
- Card Stock 2 Scrap of card stock any color at least 3 inches square.

Instructions:

1. Cut Whisper White Card Stock to 4 inches x 9 inches. You can get two cards out of an 8 ½ x 11 sheet.
2. Score along the long side of the card at 4 inches, and again at 8 inches..
3. Stamp your images BEFORE you fold your card up. It decreases the chance of smears from your block, because your paper is flat.
4. To make the wreath on the front. I punched (or you could die cut) a circle 2 ½ inches from a piece of scrap card stock. I used this circle as a pattern. I centered this circle on the front of the 4 x 4 inch front panel of the card, and traced light pencil around it. This gives you the shape of the wreath to stamp around.
5. Using Shaded Spruce ink, I started at the top of the wreath and stamped the flower stem. Then I moved over about ¼ inch and lined up the three dots on the left side of the Stamp image on the line I had traced and stamped again. I continued this around the circle
6. **IMPORTANT TIP:** Keep cleaning your block and stamp. It is so disheartening to be almost done and your block to smear across the card.
7. Stamp your words in the center of the wreath with read red.
8. I used a red Sharpie to add berries in the wreath.

9. Inside the card I folded up the 1 inch strip and using the tear and tape adhesive I made my gift card pocket. Stamp To: From: on the pocket if you haven't already done so. I also added some dots to add color on the inside.
