Also the government is setting up skill development centers in all weaving clusters and also regulating the labour rates. The weaver is very central to all initiatives and has a keen focus from all parties.

monly known as. It is through this Jacquard (patta) that the threads pass through and the patterns are woven. Then there is the Yarn shop retailer. Most yarn is now imported from China by stockists who sell through the dhaagawalas in different clusters. The yarn is sold by weight, quality, and the denier (density). From here it's the dyer who comes into a picture. Silks and cottons are dyed and then woven and fabrics like chiffons andorgettes are dyed after weaving. The warping of the loom or tying the Warp is another intricate process that involves specialists. All Weavers do not do warping themselves and seek help from these specialists. The women folk in most households help in making the spindles for the weft and are involved in the weaving process. Then there are people who make the charkha for spinning the spindles and the people making the spindles or bobbins. The weaving itself starts after 4-5 such processes and is the most time consuming and intricate of all. The finished product is then sent for polishing and roll press as it is called in the local language. The finished textile / saree is then deposited with the retailer or gaddidar or designer who does a OC and pays the

media to online and digital spectrum. 600+ pages of Digital Directory created by CITY VIBES has received excellent response from the industry and its sale is increasing on daily basis. Besides, we are now also providing Social Media services, Web designing services and Content writing services.

BUDGET BOOST FOR TEXTILE INDUSTRY

India gets ready to use advantage as businesses try to move away from Bangladesh
Of the Rs 5272 crore allocated in the 2025-26 budget for the Textile industry, Rs 635 crores will be used to upgrade the technology that is used by the textile industry under the Amended Technology Upgradation Fund Scheme (ATUFS).

On 1st February, the Union Budget presented by Finance Minister Nirmala Sitharaman gave a big boost to the textile industry announcing a 19% increase in the Budget Estimates for AY 2026-27. The BJP-led government allotted Rs 5272 crores to the Ministry of Textiles this year as compared to Rs 4417.03 crores in the Financial Year 2024-25. Additionally, the government has decided to boost cotton production and has announced a five-year Cotton Mission. "Science and technology support will be provided to farmers under this Mission. The Mission will increase the farmers' income and augment a steady supply of quality cotton," the Ministry of Textile was quoted as saying. Notably, India's mission to rejuvenate India's traditional textiles comes at a time when the country has no surplus in the cotton production sector. At present the country yields 450-kilogram per hectare, which is the lowest against a global average of 800-kilogram plus.

Fund for technology upgrade
Of the Rs 5272 crore allocated in the 2025-26 budget for the Textile industry, Rs 635

crores will be used to upgrade the technology that is used by the textile industry under the Amended Technology Upgradation Fund Scheme (ATUFS). In addition to this, the Finance Minister further gave a boost to the industry by issuing a list of exempt pieces of machinery and looms used for textile production. The scheme aims to boost the 'Make In India' initiative and ease of doing business by promoting exports and job creation, particularly for women. It also aims to focus on zero effect and zero defect in manufacturing. The scheme also aims at reducing focus on imports from other countries, further encouraging improved quality in textile processing.

How Bangladesh crisis may help India in Textile sector
Interestingly, the ongoing political crisis in the neighbouring country of Bangladesh is aiding India's garment industry to flourish by enhancing exports. Bangladesh used to be the second largest exporter of garments but the sector in the neighbouring country is looking at uncertainties amid a financial crisis, power

crisis and violence. India has scope to enhance increased cotton exports to the USA, UK, France, Spain, Italy, Netherlands, etc.

The ongoing political turmoil has affected its garment industry forcing the importing countries to look for alternative sources. Following this, India has emerged as a key beneficiary of the shift experiencing an increase in its textile and apparel products. As per the reports, between January and November 2024, India's garment exports to the US rose by 4.25% to \$4.4 billion, while Bangladesh's exports to the US declined by 0.46% to \$6.7 billion. Amid this, the Indian government is making efforts to bolster the textile industry. This includes providing financial support, tariff reductions on raw materials and machinery,

and incentives to encourage local production. As per the economic survey published on 1st February, India is the sixth largest exporter of textiles and apparel globally, contributing significantly to the Gross Domestic Product of the country, industrial production, and exports. "India exported textile items worth USD 34 billion in 2023, with apparel constituting 42% of the export basket, followed by raw materials semi-finished materials at 34% and finished non-apparel goods at 30%. Europe and the US consumed nearly 66% of India's apparel exports, 58% of finished non-apparel goods, and 12% of raw materials semi-finished materials. Other prominent destinations include the UK (8%) and the UAE (7%).

GMMSA EXPO 2025

Seventh edition, at Dana Mandi, Bahadur Ke Road, from February 7 to 10, 2025

The Garments Machinery Manufacturers and Suppliers Association (GMMSA) Expo has entered into its Ninth edition, which starts at Dana Mandi, Bahadur Ke Road, from February 7 and will continue till February 10, 2025.

Speaking to City Vibes, Ram Krishan, Chairman, GMMSA, said, "We are glad to present the Ninth edition of the expo,

expectations and desire of the industry for new technology. We find eagerness among leading brands of machinery to exhibit the latest innovations in their products in the expo. Innovations work towards reducing the costs and increasing efficiency"

Parmesh Wassist, vice-chairman, GMMSA said, "GMMSA expo is a platform that

ful in the today's world."

Narinder Kumar, General Secretary, GMMSA, said, "Machinery manufacturers are keen to showcase their latest technology that increases productivity and help industry achieve cost efficiency in each process of knitwear industry and make it more competitive. He emphasized that exhibitions have become main mode of business promotion these days as the

buyers can see the latest innovations live." Gurpreet Singh, President GMMSA, emphasized the need for the machinery manufacturing sector in Ludhiana to gear up its sleeves and be more competitive and hailed the efforts of leading garment machinery manufacturers of Ludhiana. As many as 300 brands will showcase 2,000 products in the expo. Participants from India and over 20 countries will attend expo.

which is being organized by the industry for the industry. Being from the industry itself, we know the problems,

EDITORIAL - GMMSA ADVANCES!

Corona, this year promises a ray of hope. Though most of the industry is facing a sort of payment crunch, business has started running at higher levels. India - U S trade surpassed \$200 bn in 2023, India's textile imports were valued at \$4.5 bn in Jan-Aug 2023, India's GDP is expected to surpass \$4 trn in FY25 and to reach \$5 trn by FY27. India & UAE aim for \$100 bn bilateral trade. The Garment machinery Expo at Ludhiana, namely, GMMSA is also expected to grow larger this year with more businesses trying to

book space for their latest innovations. Trade exhibitions have also started again in big way with many expos slated in the first quarter of the year. Heimtextil Germany opened with 2800 exhibitors from 60 countries & AI panel discussions for the first time. The fair highlights global trends, product diversity, and sustain ability in textiles, featur ing new halls, trends, and an expanded content programme across 17 levels. City Vibes has also expanded its spectrum of services from print media to online and

digital spectrum also. Besides, we are now also providing Social Media services, Web designing services and Content writing services. Every business needs a professional bio of its own. This not only defines a business but also enables it to foresee and plan its activities at micro level. We are proud to have started this service for the industry of Ludhiana and proudly, Ramana International is the first house from city that has got its professional bio prepared and printed.

Panipat's 6th Edition of Yarn Fabric & Accessories Show 'YFA and Asian Textile Machinery Expo ATME' begins March 20th 2025

The Yarn Fabric & Accessories Show (YFA) and Asian Textile Machinery Expo (ATME) 2025 which runs from 20th - 22nd March, 2025 at Anaaj Mandi, Panipat aims to redefine the way fiber, yarn, fabric and Home Textile Machinery are sourced and bring renowned suppliers from the these four segments closer to buyers and also offer buyers a one-stop place to source all their requirements.

YFA/ ATME 6.0 can prove to be a gateway for companies to enter the attractive and lucrative north Indian market and grab a slice of the ever-growing market for Home textiles in the northern region of India, which is one of the biggest Indian hubs for manufacturing Home textiles. The show has attracted attention of Indian textile companies in the textile value-chain, not only from Northern

India, but also Southern, Western and Eastern India, which goes to prove the popularity of the show with exhibitors. In order that exhibitors get full advantage during the course of the three-day show, the organizers have also planned several B2B meetings between exhibitors and visitors and also invited business delegations from various parts of the country. Panipat and its sur-

rounding area, is the headquarters for several renowned Indian and global Home Textile brands and also home to Thousand of Home Textile manufacturers Knitting spinning and weaving units as well as garment manufacturing units. Owners, top officials, merchandising and sourcing teams from these companies and brands are expected to attend the show, which will provide exhibitor's access to the most exclusive buyers ever seen in any other exhibition of this category. The show has already gathered a lot of enthusiasm among the industry. Vision Communications, the organizer, has initiated a 360 degrees integrated marketing and PR campaign to attract the maximum number
