GMMSA EXPO INDIA 2019 all set for its 4th edition exhibit

Ludhiana, January 11, 2019: GMMSA EXPO INDIA is all set for another milestone with its 4th edition to bring leading inventions in the world of garment manufacturing. The Garments Machinery Manufacturers & Suppliers Association (Regd.) - Expo announced the commence-

ment of their fourth edition of GMMSA EXPO-INDIA 2019 which would be held at Dana Mandi, Bahadur Ke Road, Ludhiana from January 25 to January 28, 2019. This announcement was made during a press conference held on Friday at Hotel Maharaja Regency in Ludhiana.

the latest world-class technology. An estimated 60,000 visitors from India and abroad are expected to attend the Expo that has fast become a milestone since it's very first edition. Spread over 2 Lacs Sq Ft. The Expo will showcase over 2000 products on Knitting, Weaving, Dyeing, Finishing, Printing, Sewing machines and accessories by leading brands with participants from India and over 20 countries.

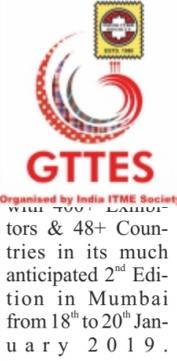

Speaking on the occasion, Mr Ram Krishan - Chairman, GMMSA Expo India 2019 said, "Our hard work over the years has paid off and we are fortunate and glad to present the 4th edition of GMMSA Expo India 2019. GMMSA EXPO INDIA has become a brand that has established its credibility as through this Expo

as we intend to provide latest technology and knowledge at the doorsteps of the industry. The Expo provides immense ease of doing business by providing opportunity to showcase latest technology to industry at its doorstep and thereby helping entrepreneurs make Ludhiana a hub of garment manufacturing on national scale."

Mr Narinder Kumar - President, GMMSA Expo India 2019 said, "The expo is organised by the industry and for the industry. Being from the industry itself, we know the problems, expectations and desire of industry for new technology. We find special eagerness among leading brands of machinery to exhibit their products in GMMSA Expo. This support has made the expo the largest ever industrial exhibition of garment machinery in Punjab. The machinery manufacturers are keen to be at the forefront in showcasing their latest technology to increase productivity and achieve cost efficiency in each process of garment manufacturing making the industry more competitive."

Also present on the occasion were Mr Amit Jain, Mr Parmesh Wasist, Mr Teja Singh and Mr Rajesh Sharma, Mr Mohan Chawla, Mr Rajinder Bhamra and Mr Davinder Pal.

2ND GLOBAL TEXTILE TECHNOLOGY & ENGINEERING SHOW 2019 18th - 20th January 2019, Mumbai, India

GTTES has grown in size and numbers and have achieved 26% growth rate attracting about 168 companies as first time participants who have never participated in any ITME events. This is a remarkable response to the 2nd edition GTTES, indicating that this event has achieved its place as a reliable international business platform for both domestic and overseas companies. It is very attractive for startups and small, medium companies from non-metro cities due to its low cost participation charges and focused exhibit chapters. First time

participation from Sri Lanka & Slovenia and countries like Belgium, China, France, Germany, Italy, Japan, Spain, Turkey, UK, USA, Taiwan, Algeria, Djibouti, Kuwait, Azerbaijan, Kyrgyzstan, Senegal, etc., is a testimony to global reach of GTTES as a trusted opportunity for business & gateway to India. Apart from this, GTTES 2019 shall facilitate interaction with all Export Promotion Councils which again shall help industry to know more about export opportunities, various Government subsidies, market initiative schemes available for Indian manufacturers & help to gain information and develop new opportunities for exports from India

The Road shows are very important part of visibility and one-to-one connect with textile hubs in various parts of the countries as well as globally. Every major

hub in our country has been tapped by the Society. A total of 18 promotional activities has been conducted over the last 6 months in India and Overseas. Visitor registration is much higher than the 1st edition GTTES

and the number of countries sending the business delegates to attend the event is also increased. Apart from the regular business delegates from Bangladesh, Egypt, Sudan, Ghana, Nepal, Tanzania, Uganda, Rwanda,

Egypt, Brazil, Morocco etc., there shall be first time delegates from Chile, Abu Dhabi & Palestine. Ministerial delegation from Ethiopia shall be available for one to one discussion for Investment & (Contd. on Page 2)

GOLDSTONE LAUNCHES HIGH SPEED SHORT CARRIAGE FLAT KNITTING MACHINE at KNITWORLD

Continuing with its tradition of bringing something new in every exhibition, GoldStone International is attracting visitors at the ongoing Knitworld Exhibition at Dana Mandi, Bahadurke Road, Ludhiana.

Talking to City Vibes, Bhupesh Jain from Goldstone International told that, "We are launching a new Flat Knitting machine this year, that has a short carriage. This high speed machine gives 20%-30% extra production."

Last year Goldstone introduced Shoe making Flat knitting machine that got very good response from the market. Goldstone is known for its fine display at the exhibitions and has been awarded with a Gold Medal for its fine display of machinery at India International Footwear Fair (IIF 2018), in Delhi.

Goldstone is participating in Knitworld International Exhibition, being organized by The Journal's Publication group from January 11-15 at Dana Mandi Bahadurke Road, Ludhiana and has put on display a wide range of Flat knitting machines, Fusing machines, Socks knitting machines, socks shoe machines, laser machines and various types of yarns used in shoe upper making and socks making. Goldstone has also launched for the first time in India its patent design Flat knitting machine for 3D knitting technology which makes knitting more valuable in terms of designing, pattern making, fabric structure etc. This machine can be used for shoe uppers, Jackets and even pressure garments.

Bhupesh Jain further told City Vibes that Goldstone has plans to bring latest machinery in

various segments of textile industry in near future

In its 25th continuous year, Knitworld exhibition continues to maintain its austerity and quality. Vrimis International, Hari

Chand Anand & Co., Vishal International, Star Traders, Shima Seiki, Tanya Enterprises, Vee Kay Enterprises, Colorjet, Texellence and many other prominent people are participating in this mega expo this year.

Ramana International Open a Service Centre in City

In its endeavour to provide timely and excellent after sales service to its customers, Ramana International, leading importer and suppliers of a wide range of Circular knitting machines, Flat knitting machines, embroidery machines and other types of machinery, has opened a new service centre at Kali Sarak, near Jain Chowk in the city.

Talking to City Vibes, Parmesh Vashisht (Roby), told City Vibes that, "Ramana has always

GTTES - Curtain Raiser

Incentives offered by Ethiopian Govt. As a trend setting exhibition organiser, India ITME Society takes care to address trending topics as well as the topics which needs attention. Conference Sessions by Indian Technical Textiles Association Society on 'International Conference on Nonwoven Technical Textiles' & by Society of Dyers & Colourists International India Pvt. Ltd on 'Educating the Technology Innovations in Textile Colouration' on 19th & 20th January 2019 respectively at GTTES 2019, shall empower Industry on these subjects.

Apart from the above two conferences, there shall be industry interactive session on 18th January 2019 to

facilitate Govt / Industry Interaction. Ms. Surina Rajan, IAS, Director General, Bureau of Indian Standards (BIS) shall be available for open interaction with Industry members. This shall help the Industry in direct representation towards formulation of policy for standardization, promoting exports / imports & control proliferation. The main points of discussion will include, Overview of Standardization work done by BIS in the field of Textile Machinery and Accessories. Issues related to Noise emissions and Safety aspects of textile machinery and adoption of related ISO standards & Inputs required for identified new subjects such as

Machines and Baby diaper making machines.

All the industry members are welcome to register at http://gttes.india-itme.com/visitors/registration_form to fix their B2B meetings, BIS Interaction & Ethiopia Investment Seminar. GTTES 2019 is the apt platform to connect the exhibitors with many new markets which has never looked at India as sourcing opportunity. Both for Indian manufactures and foreign exhibitors this new and developing markets shall bring future opportunity for business and expand their customer networking in an unprecedented way.

Look forward to welcoming you at GTTES 2019 - The ultimate destination.

“InnoTex 2018” Innovation Contest by CITI

Confederation of Indian Textile Industry (CITI) in association with Northern India Textile Research Association (NITRA) as a Knowledge Partner organised, for the first time in the history of Indian Textile & Clothing Industry, an Innovation Contest “InnoTex 2018”. Innovation applications were sought in the field of Design, Method, Process, Product and Cost in Ginning, Spinning, Weaving, Knitting, Processing, Garmenting and Technical Textiles” from all over India and abroad as well. CITI received an overwhelming response from the innovators as well as from the industry. A total of 10 innovations were shortlisted after two rounds of Juries’ evaluation. The Final Round of the Innovation Contest was organised coinciding with CITI

Diamond Jubilee Celebrations, Global Textiles Conclave 2018. Innovators made their final presentations before the eminent Jury Members comprising Mr. Shekhar Agarwal, Vice Chairman, R S W M Limited, Mr. Bharat Bhushan Modi, Vice President (Weaving), D’Decor Home Fabrics Pvt. Ltd., Mr. Neelabh Dalmia, Director, GHCL and Prof. R. S. Rengasamy, Department of Textile Technology, IIT Delhi, the stalwarts of textile & apparel industry and top academia. Three winners were selected as 1st, 2nd and 3rd rank.

Mr. Sanjay K Jain, Chairman CITI delivered the Keynote Address and shared his thoughts that how the idea of organizing an Innovation contest came and in fact it was first time in India that such a contest

is organized for innovations in the textile sector.

Dr. Arindam Basu, Director General, NITRA briefed the audience about the InnoTex 2018 contest and its journey of four months. Mr. Prashant Mohota, Chairman, CITI-YEG thanked the Innovators for their excellent innovations and presentations. He also expressed his gratitude to the eminent Jury Members who really had a herculean task of judging and evaluating the Innovators particularly when competition became very close and tough. He also acknowledged the support and help extended by Dr. J. V. Rao, CEO, T S C and his team.

He showed heartfelt indebtedness to the sponsors D’Decor (Presenting Partner), Lenzing AG and Murata Machinery Limited (Supporting Partners) without whose support this contest would not

have been possible. After the 2nd Round all 10 shortlisted candidates were mentored by the industry experts.

Shri Suresh Prabhu, Hon’ble Minister of Commerce & Industry and Civil Aviation presented Trophies to the finalists of InnoTex 2018 at the Valedictory Session of CITI Diamond Jubilee Celebrations. Mr. R. Pothiraj received the first prize for his Innovation on “32% Reduction in Energy Consumption in Running Airjet Looms”, Mr. Dhivagar got second prize and Mr. Raj Kumar got third prize for their innovations in “Zero Defect of Spandex Miss

Plating in Knitted Fabric” and “Computerised Vertical Embroidery Machine”, respectively. Shri Suresh Prabhu also congratulated NITRA for its excellent work in InnoTex 2018 Contest as Knowledge Partner.

ITMA Asia + CITME 2018

Italian technology to the fore: Around 130 firms exhibit their best

The Italian technology played a major role presenting innovative and sustainable solutions at ITMA Asia + CITME 2018. Around 130 Italian companies exhibited their latest technologies at the show. Of these, 63 manufacturers showcased their technology offerings within the National Sector Groups organized by ACIMIT, the Italian Association of Textile Machinery Manufacturers, and the ICE-Agency. The total exhibition surface area occupied by Italian businesses amounted to roughly 6,300 square meters, placing Italy among the main exhibiting nations at the event.

Asia, and China in particular, represent the primary foreign markets for Italian machinery manufacturers in the sector. Over the first half of 2018, fully 46% of Italian exports of textile machinery was destined for Asia, compared to 37% for European countries, and 12% to the Americas. The Chinese market is the main destination for Italian exports, with a 16% share of the total. Over the first six months of the current year, the value of exports amounted to 156 million euros (-8% compared to the first half of 2017). Other major export destinations for Italian machinery manufacturers in Asia include India, Bangladesh and Pakistan.

"Prospects for the Chinese market remain positive, in spite of the fact that the demand for foreign machinery from local textile

manufacturers for this first half of the year has been rather slow," confirmed ACIMIT President Alessandro Zucchi. "The trust our machinery manufacturers have placed in China is abundantly apparent in the large number of Italian exhibitors present in Shanghai. Italy is among the most highly ranked foreign Countries in terms of the number of exhibiting companies."

Demand for machinery in China is focused primarily on technologies capable of combining savings in production costs with environmental sustainability. China's textile industry is just as sensitive to innovative solutions that can respond to the market's changing demands; i.e., fast time-to-market and just-in-time production. "I believe that in order to enhance competitiveness at an international level, textile manufacturers in China, just as in other countries, must target the digitalization of production processes, aiming for sustainability in the technological solutions they adopt," added Zucchi.

Italy, with its high-tech and eco-friendly manufacturers, is one of the most important players in the textile machinery industry. Italian high-quality machines will foster the China textile industry quality and will provide environmental conservation, according to Massimiliano Tremitterra, Italian Trade Commissioner in Shanghai. China is

implementing policies for the reduction of carbon emissions with new measures for low carbon economy, low energy consumption, low pollution, one of the future choices in the economic development. For that reason, we think Italian textile machines eco-friendly technology, should be appropriate with Chinese policies. In Eastern China, there are the top three Provinces for textile and garment industry: Zhejiang, Jiangsu, and Fujian, that along with the Provinces Guangdong and Shandong reach around 80% of the industry's production capability. Italy remains one of the leading suppliers of textile machinery in China: for cleaning, dyeing and finishing machines, knitting, stitch-bond, lace and auxiliary machinery.

Mr. Alessandro Zucchi, ACIMIT President

ACIMIT represents an industrial sector that comprises roughly 300 manufacturers turning out machinery for an overall worth of around 2.9 billion euros, including laundry machines, of which 84% are exported. Creativity, sustainable technology, reliability and quality are the hallmarks that have made Italian textile machinery popular worldwide.

Italian Trade Agency (ITA) is the Italian

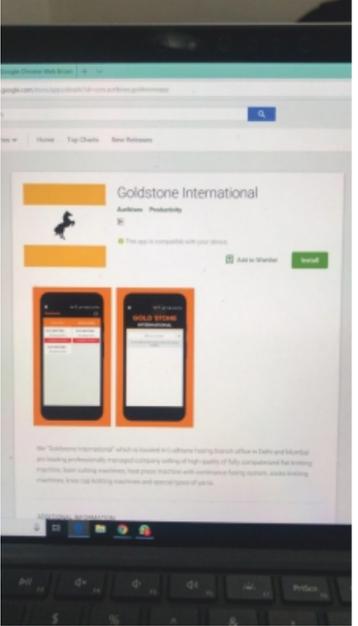

Government agency which promotes the internationalization of local companies, in line with the strategies of the Ministry for Economic Development. ITA operates worldwide from a large network of trade promotion offices linked to Italian embassies and consulates, working closely with local authorities and businesses. ITA provides information, support, and consultancy to Italian companies on foreign markets, promoting and

fostering export and co-operation in all areas – capital goods, consumer goods and services – with the ultimate aim of enhancing and boosting their presence on international markets.

ITA has been in China for more than 50 years now, with four offices respectively in Beijing, Shanghai, Canton and Hong Kong, organizing hundreds of promotional activities every year to enhance trade relationships between China and Italy.

GOLDSTONE INTERNATIONAL LAUNCHES MOBILE APP

Goldstone International has become the first suppliers of knitting machines in Ludhiana & India to developed a mobile app for providing support services to its vast number of customers scattered all over the length and breadth of the country. Talking to City Vibes, Mr. Bhupesh Jain, Director of Goldstone International, (Importers of computerized

flat knitting machines, circular knitting machines, laser machines, fusing machines, socks knitting machines and various other types of machines for sweaters, hosiery garments, shoe uppers, socks, etc), told that after 3 years of hardcore thinking the company has now been able to develop a mobile app for its customers that will help us provide systematic and trustworthy service to our customers. With this app, he added, the customers can submit their complaints, feedback and

requirements online. We can keep track of the service representative while he is on a call. The customer will have complete record of total number of services done to his machine during its total life cycle and can also rate the service provided in terms of promptness and quality."

This app can be downloaded easily from Google play Store.
