GARMENT TECHNOLOGY EXPO INTERNATIONAL

BUDGET BOOST FOR TEXTILE INDUSTRY

India gets ready to use advantage as businesses try to move away from Bangladesh
Of the Rs 5272 crore allocated in the 2025-26 budget for the Textile industry, Rs 635 crores will be used to upgrade the technology that is used by the textile industry under the Amended Technology Upgradation Fund Scheme (ATUFS).

On 1st February, the Union Budget presented by Finance Minister Nirmala Sitharaman gave a big boost to the textile industry announcing a 19% increase in the Budget Estimates for AY 2026-27. The BJP-led government allotted Rs 5272 crores to the Ministry of Textiles this year as compared to Rs 4417.03 crores in the Financial Year 2024-25. Additionally, the government has decided to boost cotton production and has announced a five-year Cotton Mission. "Science and technology support will be provided to farmers under this Mission. The Mission will increase the farmers' income and augment a steady supply of quality cotton," the Ministry of Textile was quoted as saying. Notably, India's mission to rejuvenate India's traditional textiles comes at a time when the country has no surplus in the cotton production sector. At present the country yields 450-kilogram per hectare, which is the lowest against a global average of 800-kilogram plus.

Fund for technology upgrade
Of the Rs 5272 crore allocated in the 2025-26 budget for the Textile industry, Rs 635

crores will be used to upgrade the technology that is used by the textile industry under the Amended Technology Upgradation Fund Scheme (ATUFS). In addition to this, the Finance Minister further gave a boost to the industry by issuing a list of exempt pieces of machinery and looms used for textile production. The scheme aims to boost the 'Make In India' initiative and ease of doing business by promoting exports and job creation, particularly for women. It also aims to focus on zero effect and zero defect in manufacturing. The scheme also aims at reducing focus on imports from other countries, further encouraging improved quality in textile processing.

How Bangladesh crisis may help India in Textile sector
Interestingly, the ongoing political crisis in the neighbouring country of Bangladesh is aiding India's garment industry to flourish by enhancing exports. Bangladesh used to be the second largest exporter of garments but the sector in the neighbouring country is looking at uncertainties amid a financial crisis, power

crisis and violence. India has scope to enhance increased cotton exports to the USA, UK, France, Spain, Italy, Netherlands, etc.

The ongoing political turmoil has affected its garment industry forcing the importing countries to look for alternative sources. Following this, India has emerged as a key beneficiary of the shift experiencing an increase in its textile and apparel products. As per the reports, between January and November 2024, India's garment exports to the US rose by 4.25% to \$4.4 billion, while Bangladesh's exports to the US declined by 0.46% to \$6.7 billion.

Amid this, the Indian government is making efforts to bolster the textile industry. This includes providing financial support, tariff reductions on raw materials and machinery,

and incentives to encourage local production. As per the economic survey published on 1st February, India is the sixth largest exporter of textiles and apparel globally, contributing significantly to the Gross Domestic Product of the country, industrial production, and exports.

"India exported textile items worth USD 34 billion in 2023, with apparel constituting 42% of the export basket, followed by raw materials semi-finished materials at 34% and finished non-apparel goods at 30%. Europe and the US consumed nearly 66% of India's apparel exports, 58% of finished non-apparel goods, and 12% of raw materials semi-finished materials. Other prominent destinations include the UK (8%) and the UAE (7%)."

GMMSA EXPO 2025

Seventh edition, at Dana Mandi, Bahadur Ke Road, from February 7 to 10, 2025

The Garments Machinery Manufacturers and Suppliers Association (GMMSA) Expo has entered into its Ninth edition, which starts at Dana Mandi, Bahadur Ke Road, from February 7 and will continue till February 10, 2025.

Speaking to City Vibes, Ram Krishan, Chairman, GMMSA, said, "We are glad to present the Ninth edition of the expo,

expectations and desire of the industry for new technology. We find eagerness among leading brands of machinery to exhibit the latest innovations in their products in the expo. Innovations work towards reducing the costs and increasing efficiency"

Parmesh Wassist, vice-chairman, GMMSA said, "GMMSA expo is a platform that

ful in the today's world."

Narinder Kumar, General Secretary, GMMSA, said, "Machinery manufacturers are keen to showcase their latest technology that increases productivity and help industry achieve cost efficiency in each process of knitwear industry and make it more competitive.

He emphasized that exhibitions have become main mode of business promotion these days as the

buyers can see the latest innovations live."

Gurpreet Singh, President GMMSA, emphasized the need for the machinery manufacturing sector in Ludhiana to gear up its sleeves and be more competitive and hailed the efforts of leading garment machinery manufacturers of Ludhiana.

As many as 300 brands will showcase 2,000 products in the expo. Participants from India and over 20 countries will attend expo.

which is being organized by the industry for the industry. Being from the industry itself, we know the problems,

provides world's latest technology on view for the industry and goes a long way in preparing industry to be success-
