Garment Technology Expo (GTE) 2026

The Greatest and Most Comprehensive Extravaganza of Apparel Production - 20–23 March 2026, Delhi–NCR

GTE

GARMENT TECHNOLOGY EXPO

LACE & TRIMS SHOW

Apparel Essentials

20

21

22

23

MARCH 2026

India Expo Centre & Mart Greater Noida Delhi–NCR

India's garment manufacturing sector is entering Garment Technology Expo (GTE), a decisive era of transformation, and steering this momentum is the 39th edition of the event, scheduled from 20–23 March 2026 at the India Expo Centre & Mart (IEML), Greater Noida, Delhi–NCR. With a legacy of 38 successful editions and over 25 years of unwavering industry trust, GTE 2026 stands as a powerful convergence point where innovation, automation, and scale come together to redefine the future of apparel manufacturing.

Widely recognised as South-east Asia's most influential B2B garment technology platform, GTE has evolved beyond the boundaries of a conventional trade show. It functions as a live, business-driven ecosystem where automation becomes the new fabric, and innovation shapes the ultimate design. As India advances towards its ambitious goal of building a \$350 billion textile and apparel economy by 2030, GTE plays a catalytic role—showcasing cutting-edge machinery, digital manufacturing systems, and next-generation solutions from over 20 countries, while enabling manufacturers to move towards high-efficiency, high-value production.

A key highlight of GTE 2026 is its co-location with the Lace & Trims Show 2026, a dedicated platform for manufacturers of essential components used across garment production. From trims, accessories, fasteners, labels, and embellishments to allied products and services, the Lace & Trims Show significantly enhances the sourcing ecosystem. Together, GTE and Lace & Trims shape the event into a comprehensive sourcing destination for the entire garment manufacturing value chain, offering the industry a consolidated market overview of the latest trends, materials, design innovations, and functional developments influencing garment production today and tomorrow. One of the defining highlights of GTE 2026 is the overwhelming participation of leading international apparel and knitting production technology providers, presenting the latest, most advanced machinery, systems, and material innovations shaping the future of garment manufacturing. The show floor will witness exclusive technology debuts, live demonstrations, and next-generation solutions, all showcased within the world-class infrastructure of the India Expo Centre & Mart, Greater Noida—a fully integrated exhibition destination equipped with modern halls and a five-star hotel located within the premises, ensuring unmatched convenience for global exhibitors and visitors. The exhibition floor at GTE 2026 will host an expansive range of technologies, including sewing and embroidery machines, cutting, spreading and laying equipment, digital textile printing machines and inks, CAD/CAM and automation software, dyeing, finishing and laundry technologies, testing equipment, and quality control agencies. This breadth makes GTE a definitive decision-making platform for garment manufacturers, exporters, buying houses, sourcing teams, and technology leaders looking to source smarter, automate faster, and scale sustainably.

Reflecting on the industry outlook, Dr. Rakesh Kumar, Chairman, India Exposition Mart Ltd., notes the increasingly positive environment for garment technology adoption in India, driven by infrastructure development, policy support, and expanding global demand. Echoing this sentiment, Smt. Rathi Sahni, Jt. Managing Director, Garment Technology Expo, emphasises how rapidly advancing technologies are transforming garment manufacturing—pushing the industry towards digitalisation, automation, and globally competitive production models.

Jointly organised by Garment Technology Expo, a trusted Industry Institution, and India Exposition Mart Ltd. (IEML), India's leading exhibition and convention venue, GTE 2026 offers a world-class platform designed to deliver tangible business outcomes. GTE Stands by its ever-believing moto "Best Today, Still Better Tomorrow"

EDITORIAL - Welcome 2026!

Welcome to 2026! The new year has started with a shorter but heavy winter season. The Garment machinery Expo at Ludhiana, namely, GMMSA is expected to grow larger this year with more businesses trying to book space for their latest innovations. Exhibitions have started in big way with many expos slated in the first quarter of the year. City Vibes has also expanded its spectrum of services from print media to online and digital spectrum.

600+ pages of Digital Directory created by CITY VIBES has received excellent response from the industry and its sale is increasing on daily basis. Besides, we are now also providing Social Media services, Web designing services and Content writing services.

# BOOKING OPEN FOR PART - II FOR GMMSA EDITION, 2026

*Panipat's 7th Mega & Biggest Edition of*  
**Yarn Fabric & Accessories Show 'YFA and Asian Textile Machinery Expo ATME'**  
*begins on January 29th 2026*

- Must visit :-
- Seventh edition of Yarns, Fabrics & Accessories and Asian Textile Machinery Expo.
  - YFA & ATME 2025 one-stop platform to exhibit & source fibers, yarns, fabrics, accessories, Home Textile Machinery and Spare parts etc
  - Panipat headquarters for several renowned Indian and global Home Textile brands.
  - Thousands of Home Textile Manufacturers, Knitting, spinning, weaving and fabric processing units and garment manufacturing units in and around Panipat.
  - All put together makes exhibiting at YFA & ATME 2026 an exciting proposition.
- Anaaj Mandi, near G.T. Road, Panipat aims to redefine the way fiber, yarn, fabric and Home Textile Machinery are sourced and bring renowned suppliers from the these four segments closer to buyers and also offer buyers a one stop place to source all their requirements.
- The Indian textile industry is the world's second biggest industry, while India also has the second biggest population with rising incomes. With rising costs, China is losing its competitiveness, due to which, India is emerging as the next best worldwide alternative to do business in the sector, due to its cost-effectiveness and also demographics.
- YFA/ ATME 7.0 can prove to be a gateway for companies to enter the attractive and lucrative north Indian market and grab a slice of the
- ever-growing market for Home textiles, since the show is taking place in the northern region of India, which is one of the biggest Indian hubs for manufacturing Home textiles.
- The show has attracted attention of Indian textile companies in the textile value-chain, not only from Northern India, but also Southern, Western and Eastern India, which goes to prove the popularity of the show with exhibitors.
- In order that exhibitors get full advantage during the course of the three-day show, the organizers have also planned several B2B meetings between exhibitors and visitors and also invited business delegations from various parts of the country.
- Panipat and its surrounding area, is the headquarters for several renowned
- Indian and global Home Textile brands and also home to Thousand of Home Textile manufacturers Knitting spinning and weaving units as well as a garment manufacturing units.
- Owners, top officials, merchandising and sourcing teams from these companies and brands are expected to attend the show, which will provide exhibitor's access to the most exclusive buyers ever seen in any other exhibition of this category.
- The show has already gathered a lot of enthusiasm among the industry. Vision Communications, the organizer, has initiated a 360 degrees integrated marketing and PR campaign to attract the maximum number of genuine visitors.

Founder duo of Vision Communications, Avishek Ssharma and Ankur Goel said, "Our aim is to bring

## Tribute to Late Shree Chander Mohan Sharma: The creator and soul of City Vibes.

Late Shree Chander Mohan Sharma, creator and soul of City Vibes newspaper was truly a one-man institution, an extraordinarily talented, generous, and selfless individual blessed with great strength of character, good health, and a pure soul. Since 1998, he was the lifeline of City Vibes newspaper, nurturing it with unwavering dedication and love.

From its inception, Late Shree Chander Mohan Sharma single-handedly published City Vibes, managing every aspect involved in bringing the newspaper to life. From marketing and procuring advertisements, designing those advertisements, laying out and designing the entire newspaper, to publishing and distributing it. Every edition of City Vibes carried his personal touch, hard work, and commitment. His tireless efforts, discipline, and commitment were nothing short of inspirational.

Today, he is no longer with us. He left for his heavenly abode on 24/01/2026, but his spirit, dedication, and sheer hard work continue to guide and motivate us. His

life stands as a powerful reminder that a single individual, armed with belief and determination, can achieve the extraordinary, even publishing and sustaining a newspaper on his own.

City Vibes is more than a newspaper, it is the living legacy of Mr. Chander Mohan Sharma, a legacy he built and nurtured with immense love, passion, and perseverance. His journey proved that belief in oneself and honest effort can turn even the most challenging dreams into reality.

beyond his work, he was also an extremely loving and caring husband and a devoted father, whose family was always at the center of his life.

May his noble soul rest in eternal peace. Let us always remember him in our prayers and honour his invaluable contribution with gratitude and respect.

WATCH OUT FOR **City VIBES**  
**GMMSA Editions**  
Meet Us at **STALL - D50** at GMMSA, Ludhiana

producers of world class and multiple varieties of value added fibers, yarns, fabrics, Home Textile machineries and spare parts closer to the end-users in Panipat and its surrounding areas (i.e. Ludhiana, Amritsar, Noida, Delhi, Bhadohi etc.) through YFA / ATME 2026."
