HOSIERY EDITION

Vol. 21 Issue 22 RNI No. 69862/98 WEEKLY 6 Pages DECEMBER 29- JANUARY 5, 2019-20 Publisher: C. M. Sharma M: 98154-29998 FREE DISTRIBUTION

GMMSA EXPO INDIA 2020 opens with huge response to its 5th edition expo

Speaking on the occasion, Mr Pradeep Aggarwal said "That GMMSA expo is an ideal platform for industry to upgrade its machinery and compete with global industry. Latest technological innovations available to the industry at its doorstep will be a big boom for the industry in Ludhiana."

The Expo has on display over 2000 products on Knitting, Weaving, Dyeing, Finishing, Printing, Sewing machines and accessories by leading brands with participants from India and over 20 countries. This year is even bigger and better than the previous editions and the scale of the expo is spread of over 2 Lac sq ft. The first day of the exhibition saw a foot fall of more than 15000 visitors where manufacturers demonstrated the latest technology in respective fields of garmenting and processing.

Speaking on the occasion, Mr Ram Krishan - Chairman,

GMMSA Expo INDIA 2020 said, "The garment industry looks upon GMMSA Expo and GMMSA activities for up gradation of the machinery in all segments of garmenting and this is a matter of pride for us. On showcase are the most updated technological concepts providing cost cutting, time and labor cost saving with more

productivity and eye catching designs for the industry. We will continue to provide a premier platform for machinery manufacturers to showcase their latest inventions and technological advancements under one roof."

Mr Narinder Kumar - President, GMMSA Expo INDIA 2020 said, "This expo has been put together

by the people who are directly associated with the industry or are a part of it. We are very happy with the tremendous response that we have got from all segments of the industry. Clearly, we have grown up with a lot of support and are thankful to our exhibitors for reposing their faith on GMMSA Expo India as well as the team GMMSA."

Also present on the occasion were Mr Gurpreet Singh, Mr Amit Jain, Mr Parmesh Wasist, Mr. Inder Aggarwal, Sandeep Vishal, Mr Gurdev Singh, Mr Jatinder Sudera, Mr Teja Singh, Mr Mohan Chawla, Mr Rajinder Bhamra, Mr Davinder Pal and office bearers of team GMMSA and exhibitors.

Ludhiana, January 3, 2020: The 5th edition of GMMSA EXPO INDIA opened with a huge response on Friday. The first day of the exhibition showcased leading inventions in the world of garment manufacturing machinery. The

G M M S A E X P O INDIA 2020 is being held at Dana Mandi, Bahadur Ke Road, Ludhiana from January 3rd to January 6th, 2020.

The expo was inaugurated by Mr Pradeep Aggarwal - Deputy Commissioner of Ludhiana. Also present during the inauguration were Mr Vinod Thapar - Chairman, Knitwear Club and Mr Charanjit Singh - Secretary Shawl Club. Mr Ram Krishan - Chairman and Mr Narinder Kumar - President, GMMSA Expo INDIA 2020 welcomed Mr Pradeep Aggarwal.

Goldstone International launches 1st time in GMMSA EXPO Motorized True Intarsia machine

Goldstone International launched 1st time in GMMSA EXPO 2020, Ludhiana the latest FF352QA2SZ Automated Motorized Yarn Feeder Flat Knitting Machine of reputed brand of FENGFAN for 100% True Intarsia Jacquard Patterns & Designs.

Leading flat knitting machine supplier Goldstone International has launch FF352QA2SZ Automated Motorized Yarn Carrier Flat Knitting Machine with direct yarn feed and motorised yarn feeders. Goldstone's Director of Marketing & Sales Mr. Bhupesh Jain talked to Cityvibes about the company's latest high-tech motorized feeder flat knitting machine.

FF352QA2SZ model machine knit a complex multi-colour intarsia pattern in an extra fine gauge and the machine

producing a complex multi colour reverse plaited striped intarsia fabric

In this latest model machine the yarn path is simplified by being fed directly from the top mounted yarn control units to the needles between the open or split carriage – there is no prohibitive bow connecting the front and rear cam boxes.

Direct feed is said to not only lower yarn tension but also equalise yarn tension as the carriage moves back and forwards leading to better quality fabrics.

Main Technical Features of FF352QA2SZ

- Individual Motorized Feeders
- Small carriage
- In the carriage, heavy use of the intelligent encoder It can find the zero position intelligently and feedback the position information circularly
- For stitch control, it use the customized motor to accurate it to 0.005mm
- Equipped with comb device, it reduces the usage of starting yarn and saves the time of start knit and labor, it greatly improved the efficiency.
- Automatic feeder control system can make feeders working without carriage, it will reduce the running lines of carriage
- Fengfan automatic feeder type machine can equipped with filling feeders also.
- Intarsia Designs: For intarsia fabrics up to 16 feeders are used in two knitting systems with the third system being reserved
- The latest model machine also enables the knitting of plaited intarsia patterns
- Introduces an updated clamping and cutting system

Kolkata entrepreneur conferred with Hosiery 'Hall of Fame' Award

Smriti Zubin Irani, Minister of Textiles and Women & Child Development Government of India awarded Dindayal Gupta, Chairman Emeritus, Dollar Industries Ltd, a pioneer in the hosiery industry with the prestigious 'Hall of Fame' Award for his extraordinary contribution in the textile industry.

“With more than five decades of experience in the hosiery business, his vision and efforts have translated into the continuous upward growth for the company”, said the minister.

“I feel honoured to receive this prestigious award. The Indian knitwear industry which started in a small scale during the formative years of my career had expanded into the global markets with great success. Dollar always had a brand-driven approach, from having Akshay Kumar as the brand ambassador to maintaining superior quality of the products, offering more choices in terms of products, sizes, styles and colours and

expanding the categories from Men's innerwear to Children and Women's wear as well, thus redefining the very concept of hosiery and innerwear. Today, Dollar has migrated from being a hosiery brand to an apparel brand with a wide variety of product portfolio. I dedicate this award to our entire team for providing stupendous effort and constantly upgrading and innovating over the years”, said Dindayal Gupta, Chairman Emeritus, Dollar Industries Ltd. One-day conference was hosted by West Bengal Hosiery Association affiliated to Bharat Chamber of Commerce to commemorate 125 years of Knitwear industry.

When Lingerie: Celebrates All Women

They can choose from lingerie that is increasingly refined and elegant, well beyond simple healing support (Chantelle, Edg e O'Beyond, Anita Care). Young brand Megami, eager to reinvent post-operative lingerie, invites women impacted at the core of their femi-

nity into their ad campaign, with all their vibrant beauty. Given the fact that breast cancer is most frequent among women, the Salon International de la Lingerie and Interfilière Paris are uniting to contribute to research and conquer this disease. The ARC Foundation is exclusively financed by public generosity; only the support of its donors allows it to carry forth its research mission. As an act of solidarity, for each entry purchased for the show, 1€ will be donated to the ARC Foundation for breast cancer research.

We can see that exhibitors from all over the world are feeling this same caring energy, with products now available in several sizes covering a range that more accurately reflects all body types. Images for catalogues and other ad campaign visuals are featuring models with non-retouched bodies, proudly displaying stretch marks, varying degrees of curviness, and even boldly embraced body hair.

These are choices that brands don't want to proclaim as a simple trend or stance, but rather as something self-evident, as it is for Danish designers Moons and Junes, who intend to show how beautiful realism can be by spotlighting all kinds of physiques. With their hashtag #bitsandboobs, this brand encourages women to post their bustlines on their official website, to promote their foundational claim: "Realism is beautiful".

At American brand Girlfriend Collective, this activewear line is made in sizes ranging from XXS to 6XL, allowing all women to be eco-friendly; indeed, this brand only uses fibers made from recycled plastic bottles. French designer Victoria Wil-

son created Madame porte la culotte in 2018, a brand intended first and foremost to make women happy with a combination of comfort and beauty. To offer them daily encouragement, an ego-boosting message is inscribed inside each undergarment, visible only to the woman wearing it. This is much like The Underargument, which boldly proclaims its activist philosophy throughout its collection. Launched in England in 2017 by Franco-Ivoirian designer Maïna Cissé, this brand with an anti-sexist message reflects a clear desire to empower the individual.

The biggest names in expert corsetry have also extended their product offerings for curvier silhouettes, offering their products in larger sizes, as we see at Wacoal or Maison Lejaby, which will be

celebrating its 90th anniversary this year.

It's to encourage this type of democratization that Eurovet has asked brands looking to fea-

ture on the runway at the next Salon de la Lingerie (January 18-20, 2020 - Porte de Versailles 7.3) to offer prototypes in all sizes, to fit all body types."

INDIAN GOVT NOTIFIES CHANGES TO RULES ON INPUT TAX CREDIT

India recently notified changes to the goods and services tax (GST) rules, lowering the input tax credit to 10 per cent from 20 per cent of eligible credit, if invoices or debit notes are not reflected in filings. It also permitted officers at the level of commissioners to bar debit of input tax credit for a year in case of credit being availed fraudulently.

At its meeting on December 18, the GST Council had approved a proposal in this regard to check tax

evasion and fake invoicing. The new rules will come into effect from January 1.

The government also notified that e-way bill of taxpayers who have not filed their Form GSTR-1 for two months or two quarters shall be blocked. It also allowed waiver of late fee for entities furnishing outward supply details in Form GSTR-1 between December 19, 2019 and January 10, 2020, for the period between July 2017 and November 2019.

The next Salon International de la Lingerie takes place from 18-20 January at the Porte de Versailles. Here's what organisers Eurovet have to say about the show.

"Though Jean-Paul Gaultier was the first designer to seek out a different kind of model to bring out all his creative flair, today, we see an increasing number of brands highlighting the universal nature of style by featuring the unique beauty of all women.

First, it was a matter of getting away from stereotypes based on extreme thinness, gradually making space for 'plus-size' models on the runways, and then,

with varying amounts of curves, in advertising campaigns. This change has been making headway in a world of fashion challenged in its ability to glorify all the beauty of this new perspective on femininity. The lingerie and swimwear industry have also made this 'democratic' shift by reinventing the rules of glamour and speaking generously and delightfully to all women (Chantelle, Anita, Elomi, Panache, Sans complexe Paris, Baiser Volé).

For several seasons now, Eurovet, organizer of Lingerie and Swimwear, trade shows, has committed itself to promoting a

multifaceted, real woman, particularly through its summertime #feelunique fashion shows, and through the ad campaign for the 2020 edition of the Salon International de la Lingerie, which celebrates a combination of personalities illustrating this diversity. Our muses Caroline, Edem, Juliette, and Ludivine were selected to reflect a 100% inclusive approach.

Because highlighting the beauty of all women is a mission that has no exceptions, the show team cares about supporting women at all times. When some of them have had their lives shaken up by essential surgeries,

with all their vibrant beauty.

Given the fact that breast cancer is most frequent among women, the Salon International de la Lingerie and Interfilière Paris are uniting to contribute to research and conquer this disease. The ARC Foundation is exclusively financed by public generosity; only the support of its donors allows it to carry forth its research mission. As an act of solidarity, for each entry purchased for the show, 1€ will be donated to the ARC Foundation for breast cancer research.

Ramana International organizes seminar with Vision 2020 - distributes blankets to needy as part of its annual CSR activity -

Ludhiana, January 7, 2020: Ramana International Pvt Ltd, a leading manufacturer and importer of garment making machines organised a seminar

titled Vision 2020 for its team members. A 22 member delegation from China was a part of this seminar and various key speakers like Mr. Edgar Lian –

Deputy General Manager Shantou City Lianxing Industrial Co. Ltd gave insights about new development and technological advancements are being done in

the machines to increase productivity and increase efficiency and cost cutting. A special session was conducted by Sushil Arora – Business coach for training and further development of the team members.

Sushil Arora – Business Coach took training session and said, “We are conducting these sessions on initiative of Ramana International Pvt. Ltd. for continuous learning and overall training of the youth. These sessions will help in overall development

and create better opportunities for the youth of Ludhiana.”

Parmesh Wassist (Robby) – Director Ramana International Pvt Ltd said that, “We are bringing more and more efficient machines to the market thereby reducing carbon footprint of the industry and helping the manufacturers become more competitive. As a part of our corporate social responsibility (CSR) activity, we today distributed blankets to the needy near Durga Mata Mandir to shelter

the poor from shivering cold and prevailing weather conditions. We are also helping young people become entrepreneurs by helping them in setting start ups and

availing zero security loans through our bank tie ups. Over the long term this will help people become self sustaining and in turn employment generators

which is the need of hour for our country. We have immense talent in our society and all they need is guidance and nurturing to help them become successful in life.”

BANGLADESH SETS \$50-BN RMG EXPORT TARGET IN 2020-21

Bangladesh has set a target of \$50 billion for its readymade garment (RMG) exports in 2020-21 in line with its commitment to enhance earnings from the sector in the election manifesto of the ruling Awami League. Secretary of textiles and jute ministry Lokman

Hossain Mia said this recently ahead of the 'National Textile Day 2020 and Multipurpose Textile Fair'. Prime Minister Sheikh Hasina is expected to inaugurate the three-day event on January 9 at Dhaka.

The government

has prepared an elaborate action plan to make the sector stronger and competent in the business market. Forty two vocational institutes, seven textile institutes and seven textile engineering colleges have been established to develop highly skilled textile

technicians for the sector, Mia said. A total of nine organisations and business enterprises will be awarded in different categories to enhance the RMG export and speed up the development, Bangla media reports quoted him as saying.

COTTON PRICES TO FALL AS SUPPLY OUTSTRIPS DEMAND

Cotton prices will remain weak in the 2019/20 and 2020/21 seasons as supplies of cotton outstrip demand and surpluses grow, according to a report in Issue 200 of Textile Outlook International from the global business information company Textiles Intelligence.

In fact, the average price of cotton has been falling since the beginning of 2018/19, and in 2019/20 it is forecast to fall further to only 76 US cents/lb—which would be 11 US cents/lb lower than the average for

2018/19. One factor affecting the price of cotton is weak demand caused by uncertainty arising from the US China trade war. Until relations between the two countries improve, demand for cotton will remain suppressed and so will the cotton price—unless there are major revisions to crop estimates or there are signs of greater strength in the global economy.

The continued weakness in cotton prices has been reinforced by an increase in the size of the

global stockpile which has reversed recent declines. Indeed, surpluses are growing in the main producing nations, and stock levels at the end of the 2019/20 season (July 31, 2020) are expected to be 1.3% higher than they were at the beginning (August 1, 2019).

Admittedly, global consumption of cotton is expected to rise in the 2019/20 season as Chinese demand stabilises. But there is also expected to be a rise in global cotton production during 2019/20 as yields

in India rebound and plantings increase in the USA. As a result, global cotton production will exceed demand, stocks will rise and this will put downward pressure on the cotton price.

This pressure on prices will continue into 2020/21 as demand is forecast to remain weak while yields are expected to improve as a consequence of better weather conditions.

In fact, the global cotton crop in 2020/21 is forecast to reach its second highest level ever.

India to hit \$7 bn in MMF textiles exports in 2020: SRTEPC

Exports of Indian man-made fibre (MMF) textiles is expected to reach \$7 billion by the end of fiscal 2020-21, witnessing a growth of at least 10 per cent from the current level, according to Ronak Rughani, chairman of the Synthetic and Rayon Textiles Export Promotion Council

(SRTEPC), which is optimistic about a further momentum in the sector this fiscal. Though the present trend of total MMF textiles exports from India is not encouraging, exports in value-added segments like fabrics witnessed nearly 8 per cent growth during April-October

period in 2019-20 as compared to the same period in the previous fiscal, the council said in a press release.

SRTEPC has prepared a 20-point strategy for the development of MMF fibre textile segment. The points include bringing in fibre neutrality, lowering interest

rates, making raw materials to be made available at international price, considering textile job work as manufacturing in the goods and services tax regime, considering textile merchant exporters as manufacturer exporter, branding and WTO-compatible schemes.
