## **JOHN DEERE:** (all models)

**Tire size:** 380 or smaller = standard narrows  
420 or larger = standard wide

## **CASE:** (all models except Narrow Case)

**Tire size:** 380 or smaller = standard narrows  
420 or larger = standard wide

- Narrow Case:

**Tire size:** 320 or smaller = standard narrows  
380 or larger = standard wide

## **PATRIOT:** (all models)

**Tire size:** 380 or smaller = standard narrows  
420 or larger = standard wide

## **APACHE:** (all models)

**Tire size:** 320 or smaller = standard narrows  
380 or larger = standard wide

## **NEW HOLLAND:**

- All Front Boom Sprayers (excluding NH SPX 310F):

### **Front Cones:**

**Tire size:** 380 or smaller = standard narrows or narrow short  
420 or larger = standard wide or wide short

### **Rear Cones:**

**Tire size:** 380 or smaller = narrow chopped  
420 or larger = wide chopped

- NH SP310:

### **Front Cones:**

**Tire size:** 380 or smaller = narrow short  
420 or larger = wide short

### **Rear Cones – Two Wheel Steering:**

**Tire size:** 320 or smaller = narrow chopped  
380 or larger = wide chopped + widening kit

### **Rear Cones - Four Wheel Steering:**

**Tire size:** 380 or smaller = narrow chopped  
420 or larger = wide chopped

- NH Rear Boom Sprayers

### **Front Cones:**

**Tire size:** 380 or smaller = standard narrow  
420 or larger = standard wide

### **Rear Cones:**

**Tire size:** 380 or smaller = standard narrow  
420 or larger = standard wide

## **Agrifac:** Endurance & Condor

Wide chopped cones front and rear even with 320 tires

## **Hagie:** different combos

Please call with model #, tire size, crop usage, attachments

## **ROGATOR:** (all models)

**Tire size:** 380 or smaller = standard narrows  
420 or larger = standard wide

## **MILLER NITRO:**

- 4000, 5000, & 6000 Series:

### **Front Cones:**

**Tire size:** 380 or smaller = narrow short  
420 or larger = wide short

### **Rear Cones:**

**Tire size:** 380 or smaller = narrow chopped  
420 or larger = wide chopped

- 7000 Series:

### **Front Cones:**

**Tire size:** 320 or smaller = narrow short  
380 or larger = wide short

### **Rear Cones – Two Wheel Steering:**

**Tire size:** 320 or smaller = narrow chopped  
380 or larger = wide chopped + widening kit

### **Rear Cones - Four Wheel Steering:**

**Tire size:** 380 or smaller = narrow chopped  
420 or larger = wide chopped

## **VERSATILE:**

**Tire size:** 380 or smaller = standard narrow  
420 or larger = standard wide

Note: Machines before (and including 2011) will have a rear ladder on left side. Need short cones on rear or only on left side.

## **Spray Coupe & GVM Mako**

3000/4000 Series

**Tire size:** 320 or smaller = standard narrow  
480 or larger = standard wide

7000 Series

**Tire size:** 320 or smaller = standard narrow  
480 or larger = standard wide

Note: If trailering machine suggested to use chopped cones on rear.

## **Miller Condor**

### **Front Cones:**

**Tire size:** 380 or smaller = standard narrow  
420 or larger = standard wide

### **Rear Cones:**

**Tire size:** 380 or smaller = short  
420 or larger = wide short

**Note:** On all Front Boom machines we recommend using the Short Cone because if using standard cones contact between boom and cone may occur when boom is run at low heights
