Zoom Instructions and  
Rules on Reverse Side

## Directions for using the Zoom for Lego Club:

1. You can download the Zoom App on your computer, tablet, or smartphone with speaker or headphones. Or Zoom can be opened on your internet browser (Google, Firefox, Explorer, etc).
2. You will receive an email notice of the Zoom meeting from the Library Company of Burlington.
3. Before the meeting time copy the 9-digit Meeting ID and Passcode (just in case).
4. At the time of the meeting click on the link and the App/website should launch. You will be instructed to enter the Passcode.
5. Let the Lego building fun begin!

We will also be asking that a parent/guardian be present at the beginning of the meet and check in with Ms. Dana, the moderator.

## Virtual Lego Club Rules:

Find a safe quiet place to build.

We are going to try and keep everyone unmuted while we build. If you would like to talk you can click the raise hand button or have your parent/guardian do it.

We will all get to share, but we'll have to be patient and take turns.

Let's keep our comments positive and encouraging!

We won't be using the chat feature tonight.
