

# Manufacturing Solutions LLC

To whom it may concern:

Under the definition of the REACH regulations EC1907/2006, Manufacturing Solutions produces “components” upon customers request. REACH requires material suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) above the limit 0.1% by weight. The EU announced on January 15th, 2019 an updated list of the candidate 191 SVHC chemicals. The list can be found at:

[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

In addition to changes made in Annex XVII fall within this list of SVHC: Per COMMISSION REGULATION (EU) No 276/2010 of 31 March 2010.

Based on the material content certifications provided by Manufacturing Solution’s suppliers, none of these substances are present in the materials we use in our products.

Therefore, Manufacturing Solutions products do not contain any of these SVHC more than 0.1% by weight.

We hereby inform that our products are compatible with the requirements of Art. 4 of RoHS II and with the requirements of the provisions which will result from transformation of the directive into national law to the extent such provisions reflect the directive. Manufacturing Solutions products defined as “RoHS-compatible “do not contain any of the following substances at a content above the maximum concentration limits of 0.1% for Pb, Hg, Cr (VI), PBB, PBDE, DEHP, BBP, DBP, DIBP and 0.01% for Cd, except those application(s) exempted by the annex III of RoHS II.
