

The Laundry Jet Express Vuelo model is the perfect entry-level, wall-mounted solution for anyone seeking an affordable and reliable laundry transport system. With up to two available manual ports, the Express model can be easily integrated into any home. Featuring both Lift Port and Slide manual Port options connected by “signal only” low voltage cable. The Laundry Jet Vuelo Express is designed to make laundry transport as effortless as possible and is ideal for smaller homes or needs. With an automated cycle, users can simply insert their clothes, towels, or bedding into the unit, allowing the machine to transport and auto-empty in the laundry room, ready for the next load. The Express model is also incredibly versatile, with the ability to handle up to two different port locations. Additionally, one of these ports can be piped to a Return Unit option, providing users with the convenience of sending clean and dried clothing directly to a chosen bedroom or location in the home. Crafted with a polished and reflective white gloss lux finish, the Laundry Jet Express is a high-end, ergonomic appliance that is sure to add value to any home. With advanced technology and automation, the Laundry Jet Vuelo Express is an investment that is both practical and long-lasting.
