Quality and Safety

We use only the highest quality materials in Cerra Water for exceptional quality and safety.
MADE IN USA

Six Steps to Better Health from the Cerra Water System

Step 1. Filtration

- Proprietary carbon mixture, provides WQA S-200/ANSI 42 Chemical Reduction
- Reduce smell and improve taste
- Reduce chlorine, contaminants, heavy metals and chemicals.

Step 2. Alkalinity

- Transforms any regular water into alkaline water to a pH of +8.5 to 9.5
- Improves the body detoxification, eliminating toxins.
- Adds essential micro-ionized alkaline minerals
- Helps keep the body in the balanced, slightly alkaline state

Step 3. Anti-oxidants

- Anti-oxidants fight free radical damage reducing cellular degeneration
- ORP (oxidation reduction potential) -150mV to -500mV
- Anti-oxidants may help reduce inflammation, pain and slow down the aging process

Step 4. Molecular Hydrogen

- Adds H₂ molecular hydrogen, another type of anti-oxidant
- Improve proper cell function
- Help reduce oxidative stress and free radical damage

Step 5. Hexagonal Water (Micro-clustered)

- Easily absorbable for improved hydration.
- Transforms "unorganized macro water" into organized hexagonal pattern
- Organized matrix of 3-6 water molecules

Step 6. Energized - B.F.I.T.

- Imprints new memory into the water
- Infused with 18000+ healing frequencies
- Uses proprietary B.F.I.T. (Biometric Frequency Infusion Technology)

How this Water Filter Benefits Your Health

Balances pH Levels of the Body

Our bodies are naturally alkaline and Cerra Water balances the alkalinity buffering the acidity we encounter from food, drinks, pollution, stress etc. Cerra Water is 1000x more alkaline than tap water!

Powerful Antioxidants

Cerra water is filled with anti-oxidants which eliminate free radicals. Free radicals cause oxidation in our body breaking down our cells. Cerra Water's anti-oxidants stop these free radicals from causing damage and improves cellular functions.

Better Hydration

Cerra waters transformative process breaks up large clusters of water molecules into smaller clusters which are easier for your cells to absorb. This lets you absorb the water you drink rather than having it pass right through you.

Detox the Body

Our bodies accumulate various toxins (acidic waste) from pesticides, chemicals, pharmaceuticals and other impurities found in our food, water and air. These toxins are flushed out of your system when drinking Cerra Water.

Boost the Immune System

Cerra Water helps strengthen your immune system through the added anti-oxidants and vital nutrients it infuses in the water such as magnesium, potassium, zinc and calcium. Cerra Water is a natural solution for keeping a strong immune system.

Help Lose Weight

When we eat too much acidic or junk food, our bodies convert the acidic waste into fat cells. By drinking Cerra Water we neutralize this acidic waste flushing it out rather than contributing to unwanted weight gain.

All Natural Solution

Cerra Water creates alkaline anti-oxidant water in a natural way rather than artificially using electricity. The ceramic balls found in Cerra filter mimic how water flows down a mountain stream picking up alkaline minerals.
