

Stiper Disks

Soft Silicon Quartz Disks offer Non-Invasive Enhancement of the Energetic Balancing Power of Crystals

Stiper AcuWaves are transformations of Quartz (SiO₂) to a soft material while retaining the properties of the original Quartz crystal.

Stiper Acuwaves are small, spongy, crystallized, silicon discs used to balance and treat the body through the transmission of their vibrational charge.

How Stipers Work

Stipers have a special crystal clear structure and are bio-resonators of external Qi.

When treating with quartz crystals we are working with systems that feed, nurture and repair the cellular levels.

Stipers have a crystalline pattern for transmission of energy & information regulation enabling them to:

- Disperse Excess
- Tonify Deficiency
- Absorb Non-Harmonized and Erratic Body Energy
- Balance Body Energy

- Colds & Coughs
- Anxiety & Depression
- Edema & Weight Loss
- Digestive Issues
- Circulatory Problems
- Pain Problems
 - Joints & Arthritis
 - Back & Neck
 - Shoulder, Sciatic

Feel Your Bio-Resonance

- Place a Stiper in your palm
 - Take three deep breaths
 - Notice the sensation
- Note: muscle test b/4 & After**

You are Feeling Your Own Energy

The Stiper is Amplifying, Balancing and Returning it to You

How to Treat with Stipers

Application:

1. Place Stiper on: acupuncture points, reflex zones or pain areas;
2. Secure with strip tape or round plasters.

Application Time:

1. **Standard Stimulation Time:** 30 to 45 minutes
2. **Long Term Stimulation:**

Tape in-place for 1 to 6 days. Repeat with a new disk.

For emotional problems, change Stipers every 1 to 3 days.

Note: Extend a treatment by placing a Stiper on the acupoint after needle removal.

Use Stipers for All Acupuncture Protocols
