

Kwikset

2018 PRODUCT CATALOG

BRAND STATEMENT

Your home – it's where you create, discover, obsess, love, play and experience. From the outside, it's four walls and roof. But on the inside, it's the world you live in and we are here to protect it.

Kwikset

Made for the world you live in.™

Kwikset® Products featuring Microban® Antimicrobial Protection!

Look for the Microban sticker:

Bacteria can double every 20 minutes on unprotected surfaces, but Kwikset Door Hardware with Microban protection works to continuously fight off microbes.

Benefits of Kwikset® Door Hardware with Microban® Technology

- Door hardware is 99.9% cleaner than knobs without Microban
- The antimicrobial coating last for the lifetime of the hardware finish, so you can worry less and feel more secure in your home.
- No need to clean door hardware - 24/7 Antimicrobial protection
- Kwikset with Microban protection is effective against a broad spectrum of bacteria

SMARTKEY SECURITY™

SUPERIOR SECURITY

- Highest professional security - ANSI/BHMA Grade 1 Cylinder
- SmartKey - Superior pick resistance and bump proof
- Advanced protection from sophisticated forced entry techniques

CONVENIENCE

- Re-key the lock yourself without removing from the door.
- Save cost - Re-key as often as you'd like.
- Re-key all your SmartKey locks to one Kwikset key.

Reasons to re-key.

1 Loaned or
unreturned keys

2 Recently moved,
tenant turnover

3 Your child has **lost**
their key again

4 You have a **different**
key for each door

Kwikset

Signature Series

Raise the bar with Signature Series, Kwikset's award-winning product line offering a variety of designs to complement virtually any decorative style.

The Signature Series product line offers stylish, high quality and innovative products for the established home. Featuring a collection of traditional and contemporary hardware that reflects a comfortable yet refined aesthetic, Kwikset Signature Series products provide the highest levels of quality, security and innovation.

Signature Series offers designer styles and superior security:

- 980 and 258 Deadbolt - ANSI/BHMA Grade 1 - highest level of residential security
- SmartKey Security™ Technology with BumpGuard™ Protection
- Reversible levers for right or left-handed doors

Signature Series CONTEMPORARY

UPTOWN
DEADBOLT

As part of the Signature Series line, Kwikset's contemporary products offer a modern aesthetic that reflects today's most cutting edge decor.

Inspired by city skylines and minimalist design, our contemporary products offer sleek contours and fresh finishes. And while the design aesthetic is distinctly modern, it has the ability to blend with nearly any decorative style, whether traditional, transitional or contemporary. This line will add a level of sophistication and elegance to nearly any residential setting.

Signature Series
TRADITIONAL

TUSTIN
LEVER

Included in the Signature Series line, Kwikset's traditional products offer a more conventional appeal. Inspired by the traditional lines of time-honored American design, our product designers have pulled elements from colonial, craftsman and rustic styles across the country.

While noting decorative elements from the past, Kwikset's traditional products aim to maintain a casual, transitional feel so that the hardware can be used in almost any setting, while still evoking a warm reflection of time-honored design.

ELECTRONICS

Kwikset's electronic door locks offer users the convenience of keyless entry, virtually eliminating the need for keys. All of our electronic locks are easy to install and program while complementing any Kwikset knob, lever or handleset.

The Kevo Touch-to-Open™ smart lock is a Bluetooth enabled deadbolt that puts Kwikset at the forefront of door lock innovations. Its secure authentication technology allows us to further provide the best in quality, innovation and security.

The Premis Smart Lock features Apple® HomeKit™ technology for smarter home management. With Premis, you can unlock and lock the door using Siri® for an easy, secure way to control your home security from an iPhone®, iPad® or iPod Touch®.

SmartCode™ keyless entry deadbolts allows you to enter your home with just a few simple pushes of a button and lock it with just one, eliminating the need for keys. And the SmartCode™ deadbolts with Home Connect™ technology provides better home monitoring by integrating with security & home automation systems while offering the convenience of accessing the home without keys.

The Kevo Convert and Kwikset Convert are smart lock conversions kits that provides an easy way to convert your mechanical deadbolts into a smart lock. Make your current deadbolt smarter by easily replacing the interior side of your existing deadbolt for keyless entry and automation.

BRAND VISION

Our vision is to be the bridge between traditional lock hardware and technology in order to create user-driven innovation that enhances life now and in the future.

Kwikset

Made for the world you live in.™

Kwikset, the leader in residential security, provides a smarter way to expand your security or home automation system with a complete line of wirelessly enabled door locks to fit your individual needs. Control your lock from anywhere on your smart phone, tablet, or internet connected device and never worry about forgetting to lock your door again.

- Remotely lock and unlock your door from anywhere
- Receive notifications of your lock's activity
- Control when others have access to your home
- Arm or disarm your security panel
- Wirelessly communicate to other devices in your home

KEYLESS ENTRY

No more keys. With your own personal code, you can enter your home with just a few simple pushes of a button for a convenient, key-free lifestyle.

- No more losing keys
- No more lockouts
- No more hiding keys under the mat

Get more control over who has access to your home. Now you can eliminate the need for keys as SmartCode can store multiple unique user codes. Just assign a temporary code to who ever needs one and delete it when you see fit.

REMOTE ACCESS

With a Kwikset SmartCode™ lock with Home Connect™ Technology, you can access your lock from anywhere. Never worry about forgetting to lock your door again.

Lock and unlock doors from anywhere

Control your lock from anywhere: on your smart phone, tablet, or internet connected device.

Get notified when someone enters your home

Receive notifications when your loved ones arrive home safely. Monitor people going in and out of your home. Control when others have access to your home.

Create a custom entry schedule

Do you have a contractor coming by on Monday at 2 pm, or a housekeeper that comes on Thursdays between 9am-12pm? You can assign a specific code and create a schedule that only allows entry into your home during those times.

Be prepared for life's unplanned moments

No matter where you are – work, vacation, or on the road – if something goes wrong in your home, you can remotely provide temporary access to those who need it.

HOME MANAGEMENT

Sleep easy tonight, knowing all your doors are locked with one touch on your security panel, smart phone or tablet from anywhere in your home.

The lock speaks to your security system or home automation controller

No more rushing to your security system panel to disarm it upon entry. Easily arm the security system upon leaving with the touch of one button.

Save money on energy usage

Use your lock when you leave to control thermostat settings. Through proper use of a programmable thermostat, you can save about \$180/year in energy costs.*

Welcome home

Customize your home upon entry, with everything set just the way you like it. From the lights turning on so you don't enter a dark home, the temperature adjusting to your preference, to your favorite music playing in the background as you enter.

*The annual energy bill for a typical single family home is approximately \$2200.
