A la Comunidad Académica del Recinto de Ciencias Médicas:

Con gran entusiasmo, comparto con ustedes los resultados de las presentaciones estudiantiles y de médicos residentes evaluadas durante el **45.º Foro Anual de Investigación y Educación del Recinto de Ciencias Médicas**, celebrado del 9 al 11 de abril de 2025.

Este magno evento —la actividad académico-científica más importante de nuestra institución— reunió un total de **288 presentaciones** de estudiantes, docentes e investigadores provenientes de las seis escuelas del RCM, otros recintos de la UPR, universidades privadas de Puerto Rico y Estados Unidos, así como de centros de investigación y servicios de salud del país.

Las presentaciones orales y de carteles realizadas por estudiantes y médicos residentes fueron evaluadas presencialmente por un distinguido grupo de **119 jueces expertos**, con el fin de reconocer aquellas que demostraron excelencia en contenido, metodología y comunicación científica. La competencia fue sumamente reñida, reflejo del nivel sobresaliente de los trabajos presentados, lo cual resultó en múltiples empates en diversas categorías. Esta alta calidad es testimonio del compromiso de nuestra comunidad con la investigación de vanguardia.

Adjunto a esta comunicación encontrarán la **lista oficial de ganadores por categoría**. A cada uno de ellos, así como a sus mentores científicos, les extiendo mis más cálidas felicitaciones por su dedicación, excelencia y contribución al avance del conocimiento en salud.

Nos complace anunciar que estos logros serán celebrados formalmente en una ceremonia especial de premiación que se llevará a cabo **el jueves, 4 de septiembre a las 3:00 pm en el anfiteatro Don Jaime Benítez**. Esperamos contar con su presencia para reconocer públicamente el talento, esfuerzo y liderazgo de nuestros estudiantes y residentes.

Con orgullo celebramos los logros de este Foro, y renovamos nuestro firme compromiso con el fortalecimiento de la investigación y la educación en salud desde nuestra institución.

Cordialmente,

Yasmín Pedrogo Rodríguez, MD, FAAP, MSc MEdL
