

# From pick and pack to profit

Eliminate errors, accelerate shipping, and grow—without the extra headcount.

## Put your warehouse efficiency into overdrive

Streamline warehouse workflows for more accurate picking and packing.

### Pick Lists

Create pick lists that align with your warehouse layout and workflows to reduce travel time and errors.

### Mobile Picking and Packing

Improve accuracy and reduce waste with ShipStation's mobile picking app.

### Barcode Scanning

Replace manual processes with easy scanning to get the right items in every order, every time.

### Pick to Tote

Make mobile picking even more efficient with assigned totes for items being picked in a batch.

*"We're able to ship 15,000 orders a day without blinking an eye."*

Greg Park, CEO  
Mighty Club

Streamline warehouse workflows for more accurate picking and packing.

↓ 30%

**Reduced Labor Costs:**

Companies with warehouse optimization and automation saw up to a 30% reduction in labor costs.

↓ 20%

**Decrease Fulfillment Errors:**

Warehouse management tools like barcode scanning and mobile picking can lead to a 20% decrease in errors.

↑ 25%

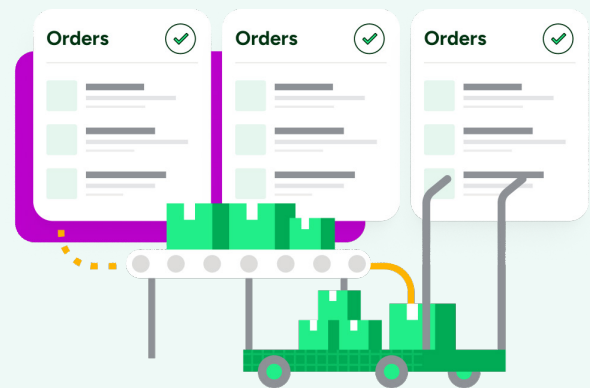

**Increase Order Throughput:**

Streamlined warehouse processes can result in a 25% increase in daily order throughput.

## Warehouse management, simplified

Get orders out faster and with more accuracy with picking and packing tools from ShipStation.

- **Save time picking products**  
Give warehouse staff the tools they need to quickly fulfill orders.
- **Manage picking on the go**  
Ditch paper pick lists and improve accuracy with mobile access.
- **Increase efficiency with barcode scanning**  
Use scan pages and barcode hot keys to avoid errors.
- **Improve customer service**  
Use on-brand messaging, ensure customers get the right items, and more.

## Streamline today, scale tomorrow

Get end-to-end warehouse tools, all in the same place you ship.
