

Post Oak Rabbitry

Gena Shifflett- 540-359-5744

Congratulations on your new furry friend! The details of your new bun is detailed below:

Description of Rabbit:	
Breed:	
Sex:	
Date of Birth:	
Dam:	
Sire:	

Your bunny is being sent home with their current pellets and hay. They are eating Producers Pride which can be found at Tractor Supply & Co. We purchase in 50lb feed bags and mix in a very small amount of plain oats for a treat. Bunnies always need a large amount of hay available to them. This is going to be their main source of food making up about 75%. They can eat Orchard grass or timothy hay.

These babies can also start eating veggies as treats. Please check on what veggies you can and cannot feed to a rabbit before giving them any. Right now we feed our adult buns carrots, bananas, broccoli, and romaine lettuce.

Once this bunny is picked up/ taken home, Post Oak Rabbitry and sellers are no longer responsible to anything that may occur to the new pet. The new owner is accepting the rabbit as is. We are always here to answer any questions you may have.

If at any time you can no longer care for your pet. Post Oak Rabbitry can and will re-purchase the bunny for 20% of the original cost paid baring the bunny is in good health.

Food:

Oats:

Bedding:

Hay by the Bale:

(These bunnies are only used to drinking water out of a bowl, if you plan to switch to a bottle, please ensure their water is being drunk since they are not used to finding their water that way)
