

Trusted Name For Natural Vegan Vitamin D3

## Frequently Asked Questions

### ○ What is it?

Vegadelight® is a Vegan Vitamin D3 naturally extracted from reindeer lichen. Vegadelight® is available both as powder and oil in USDA-Organic and conventional grades.

### ○ Isn't most Vitamin D3 natural/vegan?

Most Vitamin D3, which is made synthetically from Lanolin (sheep wool grease), is neither natural nor vegan.

### ○ What is reindeer lichen?

Lichens are symbiotic organisms composed of algae or cyanobacteria living among filaments of multiple fungi species. There are about 20,000 known species of lichens.

Reindeer lichen, *Cladonia rangiferina*, is a fruitcose lichen found in both hot and cold climates, primarily in alpine tundra.

### ○ Why do you choose reindeer lichen?

Reindeer lichen has a long history of safe food/medicine use.

Reindeer lichen is the only plant source of Vitamin D3 approved by Health Canada.

There are numerous studies supporting reindeer lichen as a rich natural source of Vitamin D3.

Reindeer lichen is a sustainable source, rated as "Least Concen (LC)" in the IUCN Red List.

Nutraland USA is the proud adopter of Reindeer Lichen (*Cladonia rangiferina*) through ABC's Adopt-an-Herb Program.

### ○ Where and how is Vegadelight sourced and manufactured?

Vegadelight® is sourced from wild crafted reindeer lichen, a byproduct of modern milling, which respects and fully uses natural resources for a sustainable future.

Vegadelight® is manufactured at Nutraland's **BRCGS Grade-A, FSMA-Certified & US FDA Inspected** facility utilizing a gentle extraction process in compliance with 21 CFR 117.

Vegadelight® is produced using only fair and ethical trade and labor practices and complies with current governmental EHS (environmental, health & safety) regulations both domestically and internationally.

### ○ In what forms and grades is Vegadelight available?

Vegadelight® is available in both powder and oil forms, and can be purchased as either conventional or USDA-Organic.

### ○ What sets Vegadelight apart from other Vegan Vitamin D3?

Identity: Made from a recognized safe plant source of Vitamin D3.

Authenticity: D3 is naturally extracted, instead of synthetically converted from plant sterols.

Safety: Backed by SA-GRAS status.

Sustainability: Responsibly wild-crafted to leave a minimal footprint on the environment.

Assurance: Dual vegan certified and non-GMO project verified.

### ○ What are formulation options for Vegadelight?

○ Tablets ○ Capsules ○ Softgels ○ Effervescents ○ Gummies ○ Melts ○ Powdered beverages ○ RTD's ○ Bars ○ Oral Strips

### ○ What is the regulatory compliance status of Vegadelight?

○ GRAS ○ Natural ○ Vegan ○ Kosher ○ Halal ○ Allergen-Free ○ Gluten-Free ○ Non-GMO/BE ○ Prop-65 compliant
