

What's the Hubbub?

Issue 6: 4th October 19

We had an exciting Summer Holidays here at Hubbub, it involved travelling the world through our craft and experience days. Meeting and learning about a variety of animals in our animal encounter days, getting messy during craft and messy play activities whilst also learning about science and teamwork and sneakily practising our maths when playing games. This was all on top of a trip to Hastings, water fights in the sun and playing outside in all the available space.

Since coming back to school, we have seen our after-school numbers increase, so we wanted to say a big hello to all our new families as well as introducing our new pets...5 baby stick insects which are going to help us learn about responsibilities, nature and the importance of hygiene procedures.

After a catch up on how everybody's holidays were and hearing about all the lovely places we were able to visit, we have got stuck in with all of our after school activities. We have been making the most of the good weather and what is left of the light in the afternoons by playing new sports such as Rugby and discussing the current Rugby World Cup.

We have also been preparing ourselves for Halloween, by decorating the room and making a start on making some Halloween decorations and treats to take home.

We have purchased some new games to play at club which are helping the children with their motor skills, concentration and language and their memories. We have also had a lot of children asking us to play Yahtzee - which is a dice game of skill and chance which is how we are also able to sneak a bit of addition and times tables in to our gameplay and sessions.

This term has also seen the children (or parents) mentioning a lot more homework is being brought home. As always we are happy to find the time to do this with them and even have some copies of different spellings being kept at club as encouragement to do them. Please get in touch if you feel we can help your child in this area.

October Half
Term:

Monday 21st -
Friday 25th
October
