PAST EXPERIENCES

IRS Splunk Implementation and IT Modernization (Subcontractor)

TandT enhanced the IRS's IT infrastructure by implementing Splunk for real-time security monitoring, data analytics, and compliance reporting. Our solution improved threat detection, operational efficiency, and ensured adherence to federal regulations.

Maryland Department of Human Services – Standardized IT Environment Deployment

TandT deployed a standardized IT environment for Maryland DHS, managing over 1,000 devices with SCCM and Dell solutions. This streamlined operations, improved compliance adherence, and enhanced system compatibility and efficiency.

GSA USAccess Program - Splunk-Based Security Enhancement (Subcontractor to Peraton)

Partnering with Peraton, TandT transitioned GSA's USAccess program from ArcSight to Splunk, enhancing security visibility across 800 sites. Our tailored approach improved data ingestion, monitoring, scalability, and operational efficiency.
