

# Float Sting Transition Strip... a Collaborative Design from Plum Street Samplers & Heartstring Samplery

If you would like to stitch "Float" by Plum Street Samplers and "Sting" by Heartstring Samplery together on one piece of fabric, this little transition strip will help you do so.

Total grid stitch count when brought together: 112 x 16!

The chart above matches the bottom of "Float" and the top of "Sting", but finishes the lower butterfly, then adds a line and three tiny bees. We think it is the perfect way to bring our two designs together, and hope that you agree!
