

MAY PEACE ABIDE

a *Heartstring Samplers* design by Beth Twist

Free Chart for November 2021

MAY PEACE ABIDE

a *Heartstring Samplery* design by Beth Twist

Free Chart for November 2021

This simple little design was stitched on 36 count Farm Eggs by xJudeDesign, using the threads mentioned on the chart. The hoop that frames it is a standard 6" size found at my local craft store. I designed it specifically to fit this hoop. *However, you may choose to finish it in any way your heart desires, on any size linen or other fabric, with any color of threads.*

Most years, I release a free chart during the month of November; my favorite month of the year. They are usually Thanksgiving related, and this year, I only strayed a tiny bit away from that theme. For in my mind, peace and thankfulness are very closely related. I don't think you can truly have one without the other.

I used a simple, peaceful black color scheme to tie this little design in with the trending #blackssamplernovember started by Jacob de Graaf of Modern Folk Embroidery.

My only requirement for this design is that as you stitch it you do it with a thankful heart and think about the ways you might inspire peace in the lives of those around you. It has been proven that thankfulness has the power to banish darkness from the corners of our minds, and I believe that the inner peace that comes from thankfulness can be contagious.

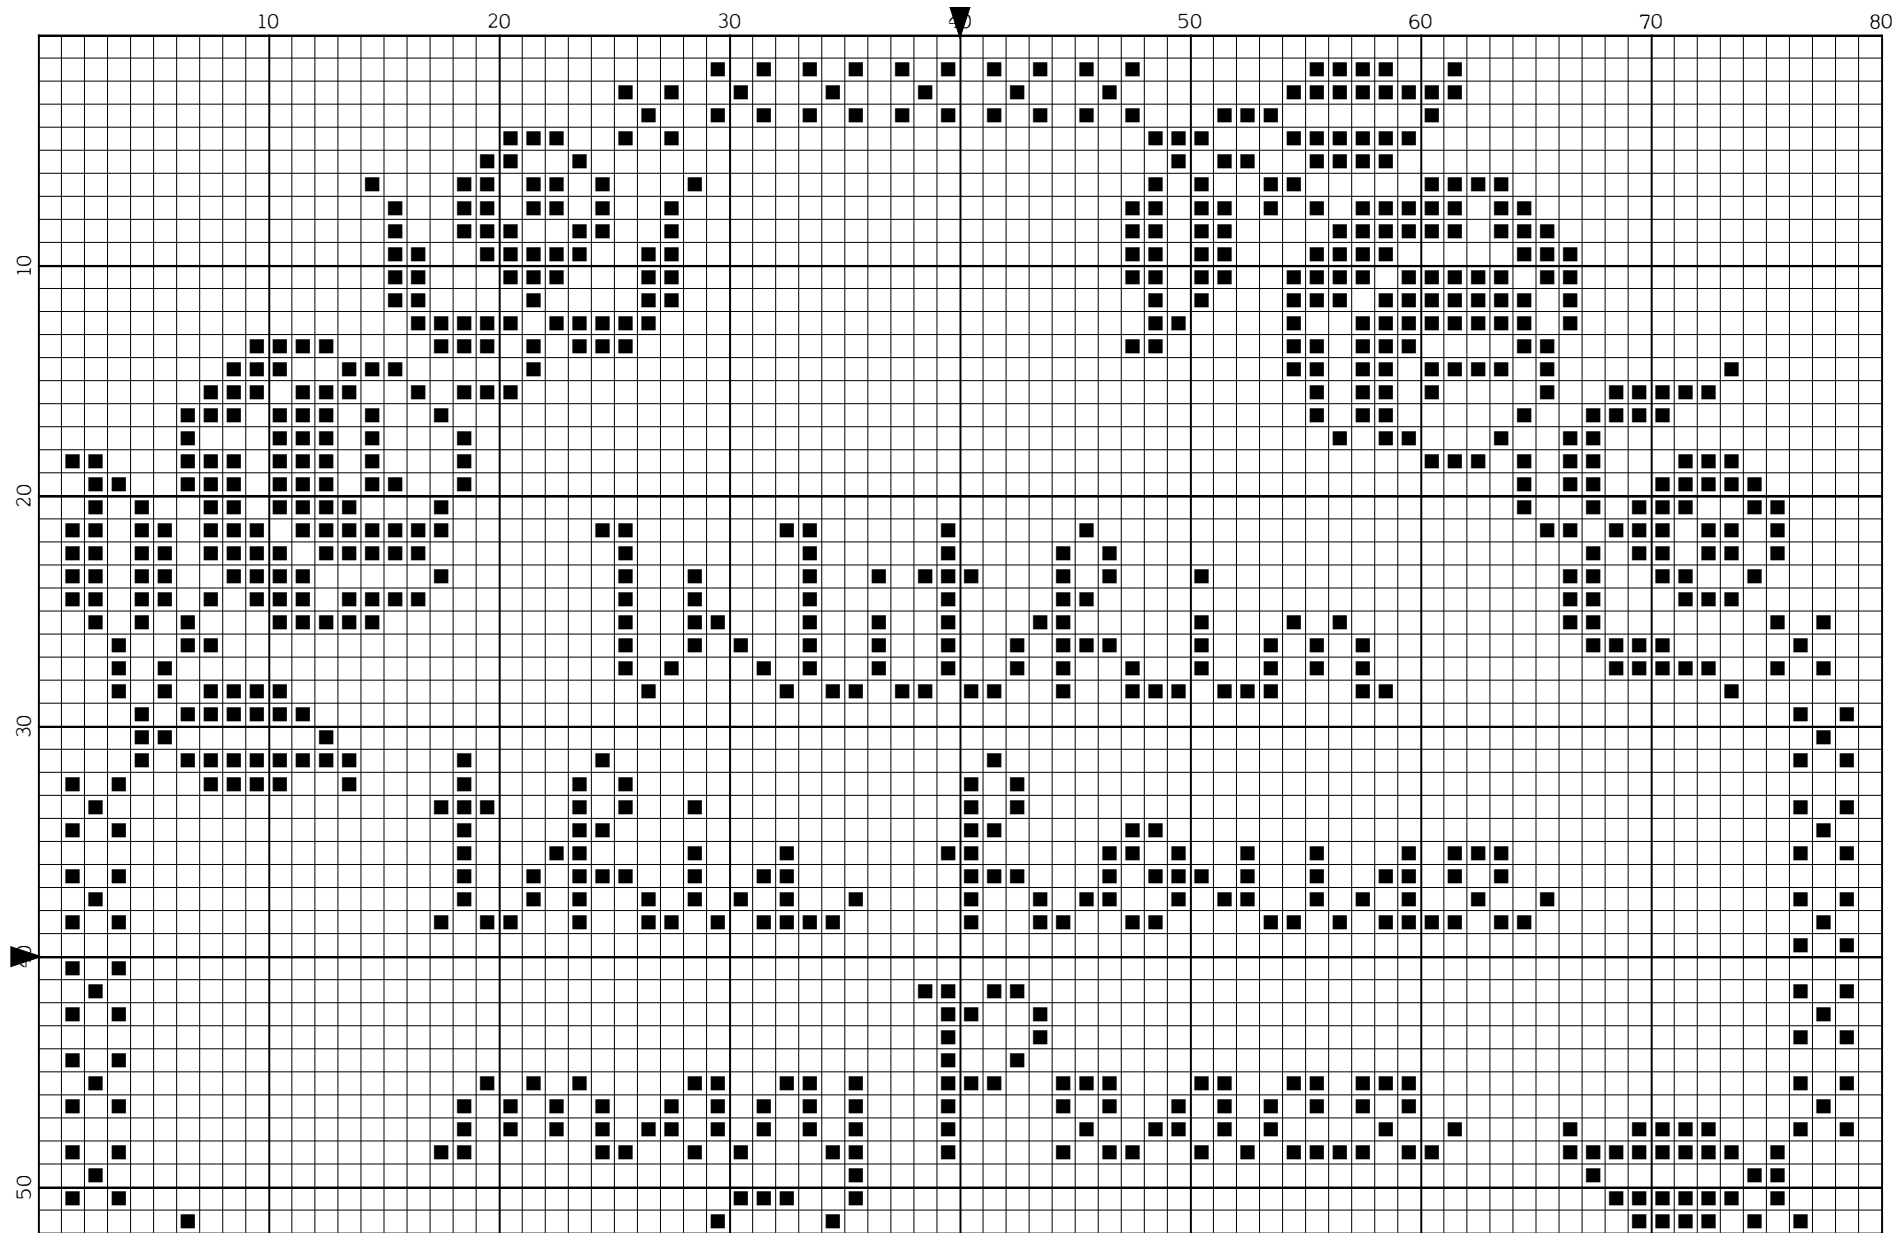

Please don't hesitate to contact me with any questions you may have regarding this design, and also feel free to send me a picture of your finish, as well as any story you may want to share about how gratitude has changed your life. My email address is: beth@heartstringsamplery.com

Shop owners, feel free to print up as many copies of this design as you want, and distribute freely to your customers. Stitchers, please do the same, sharing this design with as many of your stitching friends as are interested. It is my free gift to you.

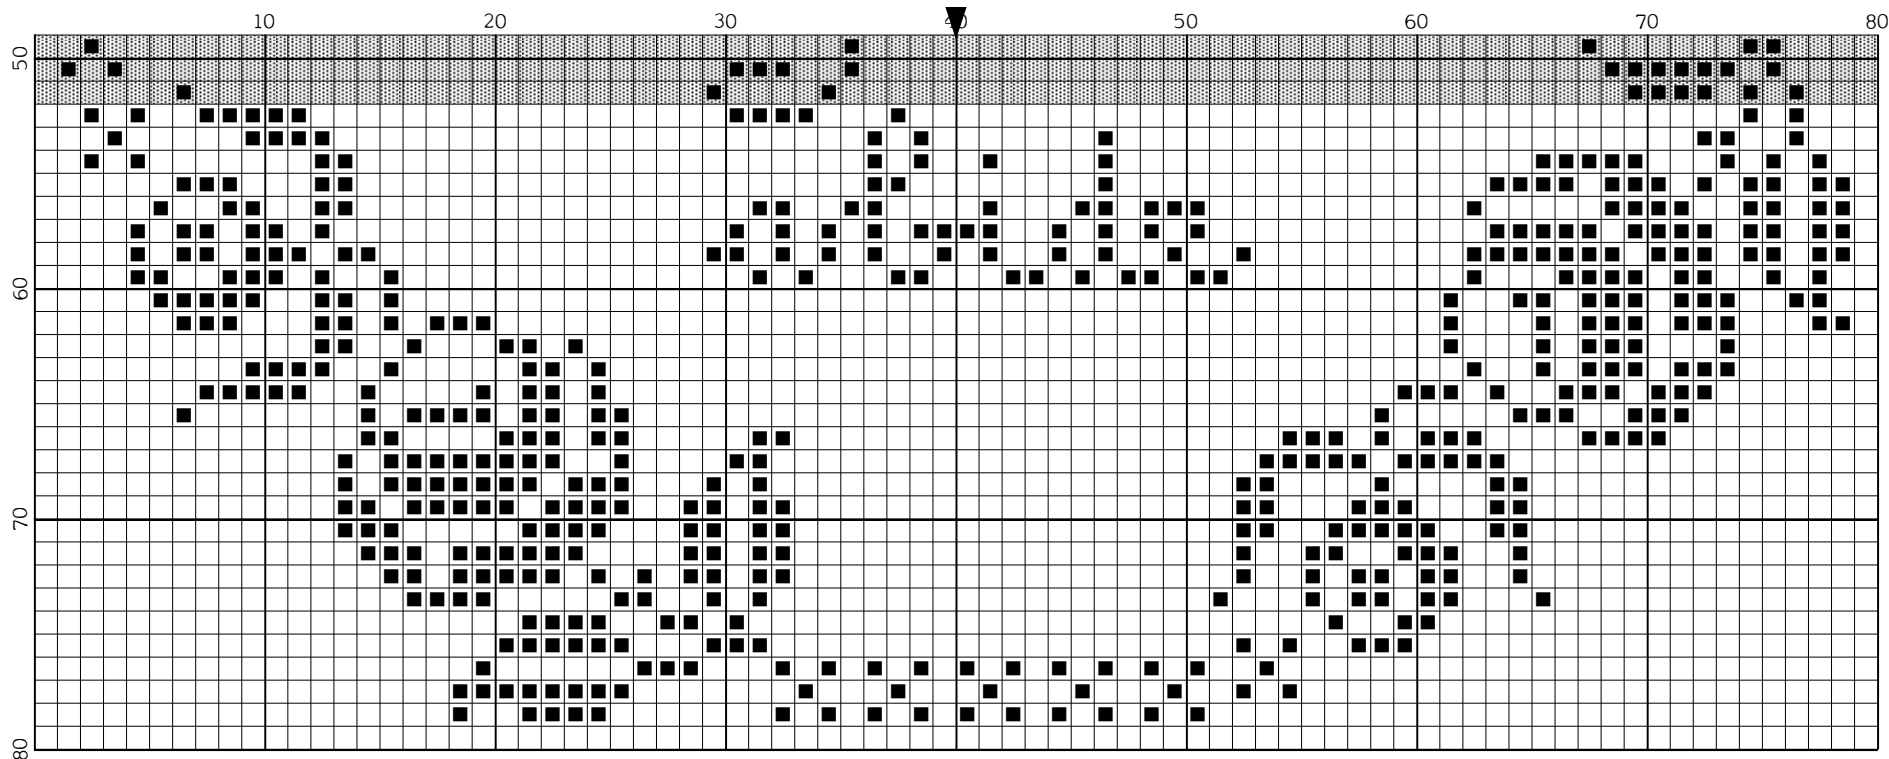

I am so thankful for the blessing of being able to create cross stitch designs that are met with welcoming arms. I could have never imagined twelve years ago that I would still be skipping down this happy path; you have made it possible for me to have a dream for an occupation. As I stitched this model, it was with a peaceful heart, because of YOU.

Happy Stitching! ♥ Beth
