

**Israeli tanks have deliberately run over dozens of
Palestinian civilians alive**

Protest this New Horror

Sat. March 16

At 1 p.m.

Corner of Main & West Streets in Danbury

We are picking March 16 as the date for this protest because on that date in 2003 Rachel Corrie was murdered in Rafah when she was run over by an Israeli (U.S.-made Caterpillar) bulldozer driven by soldiers. She was wearing a bright orange safety vest and speaking at the driver through a bullhorn. No one was ever punished. The U.S. government did nothing.
