Supplier Evaluation Questionnaire

This questionnaire aims to verify the technical and regulatory aptitude of the supplier.

Section A: General Information & Capacities

- **Production Capacity:** What is your available Organic annual volume and which variety/cultivar ?

- **Traceability:** Can you guarantee a 100% Tunisian origin and identify the specific plots of origin?

- **Sorting Process:** Describe your methods for ensuring a "First Choice" (Premium) product (e.g., caliber, closed fruit rate, absence of defects).

Section B: Quality & Certifications

- **Organic Certification:** Please attach your valid organic certificate (compliant with EU Regulation 2018/848). Who is your certification body?

- **Food Safety:** Are you certified in IFS, BRC, or ISO 22000?

- **Analyses:** Do you systematically provide analysis reports for aflatoxins and pesticide residues for every batch?

- **Physical & Temporal Separation:**

- How do you guarantee the physical separation of Organic and conventional during reception and storage (e.g., dedicated zones, color labeling)?

- If you use the same production lines, what is your cleaning and "purgings" (line clearance) procedure before switching from conventional to Organic?

- **Controls & Guarantees:**
 - Do you perform pesticide residue tests on the first units produced after a series change to prove the absence of cross-contamination?
 - Can you provide an example of your traceability register allowing for the reconciliation of incoming and outgoing Organic stocks (mass balance)?

- **Personnel:**
 - Is there a specific protocol for personnel (e.g., changing gloves or uniforms) when handling Organic products?

Section C: Packaging & EU Compliance

- **PFAS-Free:** Can you provide a "Declaration of Conformity" stating that your packaging is free of per- and polyfluoroalkyl substances (PFAS), in accordance with EU restrictions and the future PPWR regulation?

- **Recyclability:** Are your packaging materials 100% recyclable according to EU standards?
