Re: DOMINICK CREA

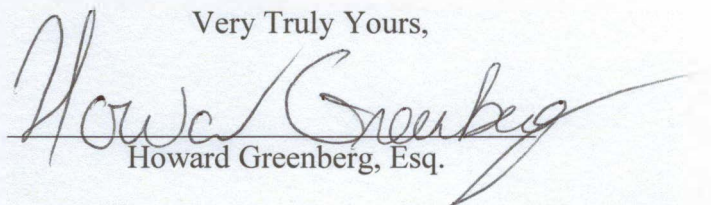

To Whom It May Concern,

I write, in the strongest terms that I can, to recommend MR. Crea and his organization.

In thirty years of Criminal practice I have never met anyone who could mine and dredge information technology, and this include lawyers, with the speed and skill of Dominick Crea.

The assistance that Mr. Crea has rendered to me in the highest and lowest profile cases has been invaluable. I have never seen anything like it and if I practice for another thirty years I don't think I will ever again see anything like it.

Very Truly Yours,

Howard Greenberg, Esq.

TO WHOM IT MAY CONCERN

RE: *Dominick Crea*

I had the opportunity to work with Mr. Dominick Crea most recently on a complex RICO case filed in federal court in the Southern District of New York.

The complex nature of the case required a mastery of voluminous discovery, which was oftentimes difficult to extract from various computer programs. Mr. Crea did an excellent job of organizing data, presenting data in a way that made it easier to understand, and also compiling statistical information. He also understands computer search programs.

It is without reservation that I would recommend him for any paralegal task, given these valuable skills.

Sincerely,
