

776 Jernee Mill Road Suite 128, Sayreville, NJ 08872  
1-888-308-3879

**Common Violation**  
Replacing an existing receptacle with a conventional one. When an existing receptacle is replaced, the NEC requires the installation of a tamper-resistant receptacle.

Tamper-resistant receptacles are designed to stop a kid from inserting an object such as a paper clip. They're required for all locations, indoors and out.
