

# Business Process Mapping (BPM): Documentation to Strategic Value

**BPM - a Strategic Enabler of Efficiency,  
Resilience, and Compliance.**

*Published by Hexagrow Consultants:  
September 2025*

# Why BPM Matters

- Reveals how the organisation truly works
- Highlights risks, vulnerabilities, and optimisation opportunities
- Provides regulators with evidence of governance and control

# Attributes of Effective BPM

- Clear inputs/outputs with data, tech, and risk attributes
- Decision points & cross-functional dependencies
- Controls & monitoring tied to regulations
- Governance with ownership and periodic review

# Practical Use Cases

- Audit readiness & regulatory evidence
- Business continuity & resilience
- Third-party/vendor oversight
- Change management & transformation
- Training & knowledge transfer

# The AI & GenAI Revolution

- Process mining exposes bottlenecks
- GenAI links SOPs, risk registers & controls
- Automated traceability of risks & controls
- Predictive insights before issues escalate

# From Cost to ROI

- Efficiency: Faster cycles, more automation
- Risk & Compliance: Stronger control coverage
- Governance: Clear accountability & oversight
- Value: Reduced penalties, measurable ROI

**Hexagrow delivers dynamic, risk-aware, AI-enabled BPMs**
