

Imagine-Pool Planning Pak

**A Design Tool to Help You Create
the Backyard of Your Dreams**

The Perfect Purchase for Your Family

It's summer, your kids are out of school... what better place to bring your family together than in your backyard?

Nothing brings your family together better than having your own swimming pool. Do you want to get Dad off the golf course and the kids away from the TV and into some healthy fun? Doughboy can help make that dream a reality with this Imagine Pool Planning Pak.

As you work through this booklet, you'll learn the difference owning a Doughboy pool can make not only in your backyard, but also in the life of your family. Here are a few other family benefits you'll receive by owning a Doughboy Pool:

- You'll know where your kids are because they'll be in your backyard
- It's a great way to get your family in shape
- Relax, unwind and escape
- Perfect place to socialize
- Fun for all ages

The Advantages of Owning a Doughboy Pool

- Lifetime Warranties
- Easy Maintenance
- Designs that fit your style and budget
- Strong enough to go IN your backyard
- Built to last a lifetime
- Expandable to 7 feet deep
- Fit larger pools into smaller areas

Safely Designed for Your Peace of Mind

Nobody takes the issue of pool safety more seriously than we do. Our ground-breaking work with the US Product Safety Commission, whose motto is "Saving Lives and Keeping Families Safe", has resulted in an industry-leading safety program that is a part of every Doughboy Pool.

We have the Perfect Pool for Your Family!

Whether you want an above-ground pool or an in-ground look, Doughboy has the solution. Any size, any height, any terrain...our pools will blend perfectly with your backyard.

- Sizes from 12' round to massive 41' X 21' "backyard lakes"
- Resin or Steel pool frames
- Beautifully designed pool liners
- Deep Swimming Area

Getting Started

Now that you've decided which Doughboy pool is right for your family, there are a few other things to consider before bringing your pool home:

1. Read your neighborhood covenants and local ordinances to find out the rules & regulations for owning a pool.
2. Select a site in your backyard that will allow for proper supervision of swimmers.
3. Position your Doughboy pump and filter near a convenient outdoor electrical outlet to run your pump.
4. Select a pool location that offers enough distance to avoid leaves or debris from entering the pool water.
5. Pick a site away from overhead power lines and allow for proper drainage.

Step into Your New Backyard

You're well on your way to creating the perfect backyard setting for you and your family! We suggest using the following grid pages to actually sketch out your plan. Before you get started you'll need to have the following items handy: a straight-edge, pencil and eraser, and a circle template. Please follow these easy steps while sketching your layout:

1. Transfer the dimensions and important features of your backyard to the grid paper.
2. Turn to the "A Size for Any Backyard" section and trace the pool you've selected onto the grid paper. Remember to position the pool in the best location suited to the features of your backyard.
3. Be sure to consider privacy needs, eating areas, locations for sporting activities and other recreational events, and spaces you've elected to keep open.
4. Don't forget to sketch the "extras" you've chosen to primp your pool; decking, fencing, pool pathway, pool ladders, patio furniture, etc...

Further enhance your backyard:

Decks made of wood or galvanized steel ranging in size from completely encompassing the entire circumference of the pool to a simple platform with a partial walkway. When decking there are a few key components to remember:

1. If using an overlap liner, you may want to leave the top rail accessible for later removal.
2. Be sure to provide access to your pool's pump, filter, and skimmer.
3. Don't forget to install a deck ladder for pool entry and exit. For fencing, a wooden or lattice style fence will enhance your pool side décor. If you are concerned about small children being around the pool, you might want to consider a second 4 foot fence located on the deck itself, with a couple of gates installed at strategic points.

A Size for Any Backyard

Because we offer round, oval, and rectangular configurations, customers have a tremendous range of options in shape and pool capacity. We have the perfect pool for any backyard environment. Most of our pool designs allow for exclusive expandable liners designed to expand smoothly into an optional, special-purpose deep swimming area. Plus, all of our oval pool shapes employ the space-saving Com-Pac™ II Oval Support System.

Enhance the beauty of your pool with these superior Doughboy accessories:

- **Doughboy's Ultra Vac Automatic Pool Vacuum** keeps pool maintenance at a minimum. It's designed to clean any covered pool from 3 feet to 9 feet deep.
- **The Walk Around Deck** fully surrounds the swimming pool and provides excellent visibility for parents while relaxing. It is also a great resting spot for swimmers to take a needed break. The Walk Around Deck includes: Deck Frame, Deck Fencing, Ground to Deck Stairs with Wood Steps & Security Gate Access.
- **Doughboy Fencing** keeps your family safe. Most communities require that a pool area be fenced in for your safety and the safety of others. Doughboy has fencing options for every pool.
- **Doughboy Entry Systems** offer a convenient and efficient way to enter or exit your swimming pool:
 - ~ **Doughboy's In-Step Entry** can be installed on a fully buried pool or above ground with a deck giving your pool entry a more up-scale look.
 - ~ **Doughboy's StairWaves** let you sit comfortably on the in-pool steps while you watch your kids splash around. They feature wide stairs and platform, custom non-skid design, stainless steel handrails and much more.
 - ~ **The Pool Bridge Ladder** features rugged polypropylene foam construction for maximum durability and a lab-certified weight capacity of 350 lbs. Available in "A" frame and deck versions.
 - ~ **The "A" Frame Safety Ladder** is designed for above ground pools with 48" to 52" sidewalls. This extremely economical ladder is also available in deck versions.
