Follow our 3 easy steps:

1. How many feet will you need? Our garlands start at 8' lengths.
2. Choose from our list of Bestselling and Signature garlands or request a custom garland.
3. Contact your Sales Representative to place your order.

Important: orders need to be placed at least 14 days prior to the requested date of pickup or delivery.

Sit back and relax as your garland is handmade, one leaf at a time!

FAQ's:

How is your garland made?

We handmake our garlands here at Hofland. The garland making team selects and trims each branch to weave a masterpiece, that flows from end to end onto a strong core wire.

Do you have a minimum order size?

Our minimum order size is 8'.

Does your garland have loops or hooks for hanging?

We add strong wire loops on each end. These loops are approximately 1/2" to 1" wide and are ideal for hanging or placing your garland. Sections can be joined together by wiring two loops together.

Some product may not be available all year round

Holly Heider Chapple
exclusively for
SYNDICATE

Round Installation
Mechanic • 4"

the pillow

The 'pillow' follows the same principles as the 'egg', resting on top of the vase rim, allowing stems to stay in place and stay hydrated without getting crushed. Because the mechanic rests on top of the container, stems can be inserted around the rim, appearing to spill gracefully over the vase's edge.

the egg

For horizontal and loose bouquets, the 'egg' concept allows the designer to insert stems from all angles while keeping them in place during the design process. No longer is the designer tethered to the bouquet.

Oval Installation
Mechanic • 6"
