

Hearing loss is the most common congenital disability (2 to 3 out of every 1,000 babies born). Over the last 10 years, HFAP has fit over 1,000 patients with hearing aids, established a clinic with state-of-the-art equipment, and provided supplies and training, to ensure a sustainable future.

OUR TEAM

Hear For A Purpose is a registered 501(C) (3). It was established in 2016 by alumni from Utah State University. 100% of all donations go to supporting better hearing.

HEAR FOR A PURPOSE

**Dominican
Republic 2025**

11-18 October

Goal #1

Our first goal is to help people in the Dominican Republic get access to good hearing technology and improve quality of life of these individuals.

Goal #2

Our second goal is to provide a team effort to help provide long term access to hearing healthcare services.

Goal #3

Our third goal is to bring about long term change through advocacy and working with local agencies to improve early identification and intervention of hearing loss.

HEARING HEALTH ENGAGEMENT

This year, we will have professionals from Conditioned Play Innovations, e3 Diagnostics, Hearing Screening Associates (HSA), House of Hearing, Idaho State University, Nebo School District, Oir Para Vivir, Otodynamics, Peak ENT, Southern Utah ENT, and the United States Air Force.
