

# Self-Determination ROADMAP

## Orientation Completed

Participant is ready to create their Person Center Plan and hire an Independent Facilitator if they choose

## The Budget

You may be asked for assessments or other important information from the SC in order to determine the cost of services

## The FMS

Once the budget is certified, the participant will hire an FMS agency. If participant chooses your agency to provide a service, you will work directly with the FMS of their choosing

## The Spending Plan

If they choose to add your agency to their Spending Plan, a participant may choose to negotiate a new rate w/ you. The completion of a Service Provider Agreement Form is highly recommended. Click link for DDS forms.

## Billing for Services

All FMS agencies work differently. You will need to contact the FMS agency chosen by the Participant to inquire about their billing process & timeframes

## Questions to Ask the FMS

- How do I submit invoices?
- How long will it take for me to get paid?
- Who needs to check in through EVV?

## Communication

All changes, needs, concerns, have to be communicated with the FMS and the SC. Establish a contact person with the FMS agency

## Change in FMS?

Families can change an FMS. If so, FMS must work w/ the participant, the SC, and service providers to establish timelines, rates, budget balance, and pending payments

## Any Questions?

Communication between all parties is essential to make this process successful and avoid delays in payment
