

The Young Person's Meeting Life

Prayer Meeting

1. Every regenerated believer (including young people) has a place in the prayer meeting
2. If they don't attend, then they may pray on their own and/or for the meeting
3. If they don't attend, then their parents can tell them what was prayed for and if the burden was released.

Home Meetings

1. Every home meeting needs to strive to blend all ages together. The young people will thrive if they are around three to five generations of Christians. It should be a warm and loving place where they can function and be willing to bring their friends.
2. Use 10 to 20 minutes of the home meeting to ask them what the young people are going through (showing interest) and to share something they enjoyed in their week.
 - a. By Friday, they should have read nearly all the YP material with verses.
 - b. Asking them to speak will help them digest what they read and be ready to say something at the Lord's Day Young People's meeting.
3. If they enjoyed their home meeting and have digested what they have received in their week, then they can try to release their top enjoyment as a simple praise in the Lord's Table.
4. The young people's level of enjoyment of the Lord's Table meeting is directly related to their enjoyment of their home meeting and their practice of speaking and singing in their daily life

Lord's Table Meeting

1. The young people's participation increases the freshness of the meeting and strengthens the church's testimony of mutuality.
2. If young people have a healthy daily life, then their meeting life will also be healthy. The inner life is for the daily life which is for the meeting life (this is Christ).
3. The young people's enjoyment and function in the Lord's Table meeting will be an issue of their daily labor of contacting the Lord, reading the word and the ministry. The more they speak and sing in their daily life the more they will speak and sing in the meetings.
4. The Young People's meeting has two main elements: the young people's enjoyment of their week (testimony, over-flow, prophesying) and a definite teaching for their edification.

*The goal is to bring our young people along until they enter "the church life". We do not want them to have a separate meeting life and a different daily living. We grow together.
