- 5.3 Review of Proposed Construction.** The Architectural Committee shall consider and act upon any and all proposals or plans and specifications submitted for its approval pursuant to this Declaration, including the inspection of construction in conformance with plans approved by the Architectural Committee. The Architectural Committee shall have the power to determine, by rule or other written designation consistent with this Declaration, which types of Improvements shall be submitted for Architectural Committee review and approval. The Architectural Committee shall have the power to hire an architect, licensed with the State of Idaho, to assist the Architectural Committee in its review of proposals or plans and specifications submitted to the Architectural Committee. The Architectural Committee shall approve proposals or plans and specifications submitted for its approval only if it deems that the construction alterations contemplated thereby in the locations indicated are in conformity with this Declaration, and that the appearance of any structure affected thereby will be in harmony with the surrounding structures, and that the upkeep and maintenance thereof will not become a burden on the Grantor.
- 5.3.1 Building Restrictions.** With the exception of Common Area Lots and for multifamily units as described herein above, no buildings shall be erected, altered, placed or permitted to remain on any Building Lot other than one (1) detached single-family dwelling which may not exceed thirty feet (30) in height, and a private garage. - 5.3.2 Conditions on Approval.** The Architectural Committee may condition its approval of proposals or plans and specifications upon such changes therein as it deems appropriate, and/or upon the agreement of the Owner submitting the same ("Applicant") to grant appropriate easements for the maintenance thereof, and may require submission of additional plans and specifications or other information before approving or disapproving material submitted.
- 5.3.3 Architectural Committee Rules.** The Architectural Committee also may establish rules and/or guidelines setting forth procedures for and the required content of the applications and plans submitted for approval. enclosures, as well as special architectural guidelines applicable to Building Lots located adjacent to public and/or private open space.

- 5.3.4 Detailed Plans.** The Architectural Committee may require such detail in plans and specifications submitted for its review as it deems proper, including, without limitation, floor plans, site plans, landscape plans, drainage plans, elevation drawings and descriptions or samples of exterior material and colors. Until receipt by the Architectural Committee of any required plans and specifications, the Architectural Committee may postpone review of any plan submitted for approval.
- 5.3.5 Architectural Committee Decisions.** Responses by the Architectural Committee to the applicant will be sent to the address set forth in the application for approval within twenty (20) days after filing all materials required by the Architectural Committee. Such variances must be evidenced in writing, must be signed by at least two (2) members of the Architectural Committee. If such variances are granted, no violation of the covenants, conditions or restrictions contained in the Declaration or any Supplemental Declaration shall be deemed to have occurred with respect to the matter for which the variance was granted. The granting of such a variance shall not operate to waive any of the terms and provisions of this Declaration or any Supplemental Declaration for any purpose except as to the particular Building Lot and particular provision hereof covered by the variance, nor shall it affect in any way the Owner's obligation to comply with all governmental laws and regulations affecting such Owner's use of the Building Lot, including but not limited to zoning ordinances or requirements imposed by any governmental or municipal authority.
